AMENDMENTS ADOPTED

SUMMARY

This bill equalizes the authority granted to loan officers of state-chartered credit unions and federally chartered credit unions. Current law requires a loan officer of a state-chartered credit union to refer any loan application the loan officer would disapprove to the board of directors or the full credit committee. Loan officers of federally chartered credit unions are granted the authority to disapprove loans without referring the applications to the board or committee. This bill allows credit union loan officers to approve or disapprove loan applications.

SUMMARY

This bill allows the Risk Management Division to provide insurance advice and services to the elementary and secondary schools of the State. It requires the purchase of reinsurance for liabilities over \$300,000 per occurrence, payment to be made by the insured entity. The bill further requires the Risk Management Division to contract for annual actuarial services and to adopt rules to ensure that the insurance fund is adequately funded and the assets of the fund are protected.

Committee Amendment "A", H-1143, adds the provision of insurance advice and services for group homes for children and persons with mental retardation and specialized children's homes to the insurance responsibilities of the Risk Management Division. This amendment divides the self-insurance fund administered by the Risk Management Division into 2 funds. One fund would be for state property and one, designated in this amendment as the "state-administered fund" would be for nonstate entities. Recovery against the state-administered fund is limited by contract provision and is limited to the assets of the fund as a maximum. The state-administered fund must be actuarially sound and may purchase excess
