#### SUMMARY

This bill extends the sunset provision regarding the laws that restrict the use and administration of biosynthetic bovine somatotropin, known as BST, from February 1, 1993 to February 1, 1994.

The committee amendment (S-105), the majority report of the committee, deletes the retroactivity section of the bill and adds a fiscal note to the bill.

Senate Amendment "A" (S-123) corrects a technical error in committee amendment "A". The committee amendment removed the retroactivity section of the bill and attempted to revive the substantive provision of law effective on the effective date of this emergency measure. The substantive provision, however, was repealed by its own terms on February 1, 1993 and can not therefore be simply revived. This amendment reenacts the same language but with a repeal date of February 1, 1994, thereby giving effect to the intent of the committee amendment.
