AMENDMENTS ADOPTED

SUMMARY

The bill would have repealed and replaced 2 sections of law regulating abortions. The first section would have been repealed and replaced to make clear that the State's policy against abortions after viability, except to preserve the life or health of the mother, has continuing vitality under current case law and is to be enforced. The 2nd section would have repealed existing standards for informed consent and replaced them with a provision modeled after the Pennsylvania statute held Constitutional in Planned Parenthood of Southeastern Pennsylvania v. Casey, ___ U.S. ___, 112 S.Ct. 2791, 120 L.Ed.2d 674 (1992).

Committee Amendment "A" (H-97) would have required that certain information be provided at the time a pregnancy test is requested and that additional information be provided if the test is positive. It would also have provided that information about abortion and carrying a pregnancy to term be offered at the time a pregnancy test is confirmed by a health care practitioner or health care provider. The pregnant woman would have been able to refuse certain information in specific circumstances. Not adopted.

House Amendment "A" to Committee Amendment "A" (H-118) would have sent the following question to referendum: "Do you favor the enactment of a law that requires a health care practitioner to provide and offer a woman certain information regarding pregnancy and abortion at the time a pregnancy test is performed?" Not adopted.

House Amendment "A" (H-117) would have sent the following question to referendum: "Do you favor the enactment of a law that will impose a 24-hour waiting period before a woman may receive an abortion and that will expand the type of information a doctor is required to provide to a woman seeking an abortion?" Not adopted.
