2. It requires that job training services be coordinated by the Department of Education rather than the Department of Labor, and amends the existing funding and administration sections to specify that the program be conducted under the auspices of the education delivery system.
3. It specifies that certification be granted to participants who complete a 200-hour curriculum, and allows certification to be issued to persons who document completion of comparable training in accordance with rules adopted by the activities professional board of a state health care association.

Amendment S-194 changes the original bill in the following ways.

1. The bill changes the name of the program to the Job Training Program for Activities Professionals. The amendment substitutes the name "coordinator" for "professional" in the title of the chapter and throughout the laws governing activities coordinators, which is consistent with nationally used titles.
2. The bill requires that job training services be coordinated by the Department of Education rather than the Department of Labor. The amendment removes this change, leaving the coordination function in the Department of Labor.
3. The bill extended shared rule-making authority to the activities coordinator board of a state health care association. The amendment clarifies that the state departments responsible for rulemaking must consult with the association, but the association does not have rule-making authority.

The amendment also adds a fiscal note to the bill.

This bill also imposes financial responsibility for the support of the children in the family on such a person.
