Committee amendment "A" (H-260) replaced the entire bill and changed its title. The amendment eliminates the requirement that a person hold a state shellfish harvesting license in order to obtain a municipal commercial shellfish license. The amendment does not alter the provisions of the Maine Revised Statutes, Title 12, section 6601 that require a person to hold a valid state shellfish license in order to harvest shellfish.

LD 1029 **An Act to Require Possession of a Maine Fishing License to Fish in Coastal Waters** ONTP

SPONSOR(S) **COMMITTEE REPORT** **AMENDMENTS ADOPTED**
GREENLAW ONTP

SUMMARY

This bill would have required that persons fishing for both freshwater and saltwater fish obtain a Maine fishing license. Persons holding a valid commercial fishing license would have been exempt from this licensing requirement while fishing in coastal waters.

Although the bill received an ONTP report, the Commissioner of Marine Resources, at the Committee's request, agreed to form a task force to study the economic and resource management issues that would be implicated by enactment of a recreational saltwater fishing license. By letter to the Commissioner dated May 27, 1993, the Committee requested that the Commissioner convene the task force at the earliest opportunity and that the task force report its recommendations to the Committee no later than February 1, 1994.

LD 1046 **An Act Revising the Shellfish-harvesting Laws** PUBLIC 281

SPONSOR(S) **COMMITTEE REPORT** **AMENDMENTS ADOPTED**
RYDELL OTP-AM H-353

SUMMARY

This bill proposed to change the penalty provisions applicable to violations of municipal shellfish-harvesting ordinances by increasing the minimum fine for subsequent offenses from \$100 to \$500 and prohibiting the court from suspending the fine for subsequent offenses.

Committee amendment "A" (H-353) replaced the bill. The amendment establishes a new minimum fine for harvesting shellfish in closed areas and for digging shellfish without a license. The new minimum fine, which may not be suspended by the courts and which is applicable to violations enforced under state law and violations enforced under municipal shellfish-harvesting ordinances, is set at \$300 for a first offense and \$500 for subsequent offenses. The existing minimum fine of \$100 is retained for all other violations of municipal shellfish-harvesting ordinances.

The amendment also establishes a new minimum fine for harvesting or possessing a bulk pile of shellfish that consists of more than 20% short clams. The new minimum fine, which may not be suspended by the courts, is \$300 for a first offense and \$500 for subsequent offenses. The existing minimum fine of \$100 is retained for bulk piles consisting of more than 10% but less than 20% short clams.
