LD 1042 An Act to Provide Equitable Treatment of Electric Utility Conservation Costs

COMMITTEE REPORT

ONTP

AMENDMENTS ADOPTED

SUMMARY

This bill proposed to add a subsection to the Electric Rate Reform Act to require the Public Utilities Commission to adjust an electric utility's rates to recover revenues lost due to conservation, provided the revenue loss is not otherwise reflected in rates for the utility.

The bill also proposed to repeal the law that authorizes the Public Utilities Commission to restore revenues lost by an electric utility due to the economy, weather and conservation. The effects of the economy and the weather on an electric utility's revenues would continue to have been subject to traditional utility rate-making principles.

The bill further proposed to terminate the rate-adjustment mechanism currently in place for Central Maine Power Company ("ERAM") and to require that revenues recovered by Central Maine Power Company under ERAM would be limited to the \$8,000,000 already in rates and the amount of revenue lost due to conservation and demand-side measures commencing March 1, 1992.

AMENDMENTS ADOPTED

H-345

SUMMARY

This bill requires the Public Utilities Commission to establish a 70% rate discount for calls to persons who are hard-of-hearing. The bill also enables certified deaf users of the vocal relay service to take advantage of the 70% discount when making credit-card calls. This bill adopts a recent recommendation of the Telecommunications Relay Services Advisory Council, established under the Maine Revised Statutes, Title 35-A, section 8704. This bill also incorporates recommendations by the advisory council concerning the appropriate words to use when referring to persons who are hard-of-hearing.

The committee amendment (H-345) requires the Public Utilities Commission, rather than the Department of Human Services to approve the form of affidavits filed with utilities by hearing or speech impaired persons pursuant to the Maine Revised Statutes, Title 35-A, section 7302.
