**LD 1542 An Act to Encourage Implementation of Total Quality
Management Procedures in the Executive Branch of State
Government**

SUMMARY

This bill encourages implementation of total quality management, or TQM, in State Government. The 115th Legislature mandated a TQM approach for both management and labor in State Government and this bill recognizes the need for closer collaboration between the executive branch and state employee unions.

The bill creates and empowers the Maine Quality Management Council, made up of the Governor, representatives of executive branch departments and agencies, state employee representatives and others. The council is established to guide TQM efforts in State Government and develop shared vision, values and tenets for the TQM process in government.

This bill makes clear the intent of the Legislature that total quality management is designed primarily to make State Government more efficient and cost-effective and not to achieve direct reductions in the size in the work force. The bill directs the council to develop procedures to locate displaced employees elsewhere in State Government and to provide retraining options if necessary.

The committee amendment (H-581) provides clarification of the use of available balances in General Fund and Highway Fund accounts, adds a reporting mechanism and sunsets the use of balances for TQM initiatives on July 1, 1995. The amendment also references Resolve 1991, chapter 73, which established the initial total quality management program for State Government adds a fiscal note to the bill.

The House amendment (H-637) provides that 2 legislative members of the Maine Quality Management Council must be appointed by the presiding officers of the Legislature.
