**Summary Of Legislation Before The Joint Standing Committees
May 1998**

We are pleased to provide this summary of bills that were considered by the Joint Standing Committees of the Maine Legislature. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this Session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills handled by the joint standing committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

LD 1670 proposed to prohibit broad form and intermediate hold harmless provisions in construction contracts.

Committee Amendment "A" (H-973) (Minority Report) proposed to replace the bill. It proposed to prohibit the use of indemnification clauses in construction contracts that require the contractor or subcontractor to indemnify another party for the results of that party's own negligence. The contractor would be liable for the negligence of the contractor's employees or agents, and the subcontractor would be liable for the negligence of the employees and agents of the subcontractor. The new language would not affect a valid insurance contract, workers' compensation agreement or other insurance agreement, therefore eliminating the possibility that the provision would allow a suit against a party for injuries otherwise covered by workers' compensation. (Not adopted)

LD 1728 proposed to expand physician peer review beyond hospital settings to include other types of settings where health care services are provided.

Committee Amendment "A" (S-543) proposed to replace the bill and amend the Maine Health Security Act to recognize that new health care entities have arisen since the adoption of the Act. The amendment proposed to make the Act and its obligations and protections applicable to these new types of health care entities. It proposed to provide confidentiality for written professional competence review records.

Enacted law summary

Public Law 1997, chapter 697 amends the Maine Health Security Act to recognize that new health care entities have arisen since the adoption of the Act. It makes the Act and its obligations and protections applicable to these new types of health care entities. Chapter 697 also provides confidentiality for written professional competence review records.
