ONE HUNDRED NINETEENTH LEGISLATURE
SECOND REGULAR SESSION

Summary Of Legislation Before The Joint Standing Committees
July 2000

We are pleased to provide this summary of bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

CASSIDY WHEELER G	ONTP	

LD 319 proposed to require drug testing of commercial vehicle operators involved in fatal or potentially fatal motor vehicle accidents.

LD 321

An Act to Create a License Plate for Veterans Who Served in Iwo Jima, Normandy or Desert Storm

ONTP

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
HARRIMAN BUCK	ONTP	

LD 321 proposed to create 3 additional special license plates for veterans who served at the battles of Iwo Jima and Normandy in World War II and in Operation Desert Storm in 1991. As with Purple Heart license plates, a one-time fee of \$10 would have been charged to offset additional costs.

LD 1179

An Act to Amend Weight Requirement Inequalities Between Hauling Wood Products and Hauling Other Products

DIED BETWEEN BODIES

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
KASPRZAK	ONTP MAJ OTP-AM MIN	

LD 1179 would have amended the weight tolerance for certain trucks by allowing a maximum load of 64,000 pounds on the tri-axle unit of a 4-axle single-unit vehicle that carries building materials that absorb moisture during delivery originating and terminating within the State, bark, sawdust, firewood, sawed lumber, dimension lumber, pulpwood, wood chips, logs, soil, unconsolidated rock material including limestone, bolts, farm produce, road salt, manufacturer's concrete products, solid waste or incinerator ash, highway construction materials, products requiring refrigeration and raw ore when transported from a mine or quarry to a place of processing. Under current law, the tolerance applies only to the tri-axle unit of a 4-axle single-unit vehicle that carries forest products.

Committee Amendment "A" (H-911) replaced the bill. It proposed to increase the axle weights allowed for single-, tandem- and tri-axle units. For vehicles found in excess of the limits set in this amendment, the fines would have been increased.
