FIRST REGULAR SESSION

Summary Of Legislation Before The Joint Standing and Select Committees
August 1999

We are pleased to provide this summary of all bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

LD 574

An Act to Repeal the Chemical Substance Identification Law

PUBLIC 57

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
HATCH MILLS	OTP-AM MAJ ONTP MIN	H-53

LD 574 proposed to repeal the state chemical substance identification law, which required employers to communicate information regarding chemicals in the workplace to workers and to the Bureau of Labor Standards. The provisions of that law have been superseded by federal law and regulation.

This bill was submitted on behalf of the Department of Labor.

Committee Amendment "A" (H-53) proposed to clarify that the Board of Pesticide Control is not responsible for enforcement inspections under the law being repealed, and to clarify that the board must assist the Director of the Bureau of Labor Standards in providing training and education to agricultural employers, rather than giving the board sole responsibility to provide that education and training.

Enacted law summary

Public Law 1999, chapter 57 repeals the state chemical substance identification law, which has been superseded by federal law and regulations. The law also clarifies the responsibilities of the Board of Pesticide Control with regard to training and educating agricultural employers.
