ONE HUNDRED NINETEENTH LEGISLATURE
SECOND REGULAR SESSION

Summary Of Legislation Before The Joint Standing Committees
July 2000

We are pleased to provide this summary of bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

LD 2519 proposed to increase access to the Maine Technical College System. The first part of the bill proposed to provide funding to add 250 additional students systemwide beginning in the fall of 2000.

The 2nd part of the bill proposed to address the Maine Technical College System's need to provide students with the ability to take courses and do research over the Internet. The bill proposed to provide funding to migrate to Asynchronous Transfer Mode, or ATM, delivery that will provide greater speed and access by students to the Internet. In addition, this bill proposed to provide funding to develop curriculum in all areas of study for courses to be taught via web-based delivery, as well as the training of faculty in the use of web-based delivery.

Senate Amendment "A" (S-769) proposed to strike the appropriation section of the resolve. While Senate Amendment "A" was accepted, the supplemental appropriations bill included \$2,000,000 in one-time funds in fiscal year 2000-01 for technology improvements and operational support and further provided \$900,000 in fiscal year 2000-01 for operational support and increased access for students (see Public Law 1999, chapter 731, part A, section A-1).

Enacted law summary

Resolve 1999, chapter 128 provides that the Maine Technical College System shall attempt to increase its system-wide enrollment to 10,000 students during the two biennia by authorizing the technical colleges to attempt to enroll 1,000 newly matriculated students system-wide over the next four years. The resolve also states that the Legislature intends to appropriate and allocate the funds necessary to reach these enrollment targets.

LD 2538 proposed to require the Department of Education and every school administrative unit in the State to provide professional development to the unit's administrators, teachers and educational technicians and to develop a professional development plan. This bill also proposed that the department summarize the performance of these plans and report this summary to the Legislature every 2 years and to award grants to school administrative units that need to bring their plans to standards or that have special professional development needs. Finally, the bill proposed to appropriate funds to implement the bill.
