121st Maine Legislature First Regular Session

Summary Of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing and joint select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

acquiring lands or easements so closely paralleling existing wire lines of other utilities that the proposed transmission lines would substantially interfere with service rendered over the existing lines; and

3. Prohibiting a transmission and distribution utility from using property that it acquires through the exercise of eminent domain or property that it acquires by other means but that it had authority to take by eminent domain for any purpose other than the purpose for which the property was acquired, and also prohibit the transmission and distribution utility from transferring its interest in that property to any other entity, including an affiliate, without the permission of the commission.

Committee Amendment "A" (H-318) was the minority report of the Joint Standing Committee on Utilities and Energy. With regard to property acquired by eminent domain, or property acquired by other means but taken under the threat of eminent domain, this amendment proposed to prohibit a transmission and distribution utility from using the property for purposes other than those for which it was acquired. The amendment proposed to authorize the Public Utilities Commission to allow public uses of covered property or, by rule, incidental uses of covered property. (Not adopted)
