121st Maine Legislature First Regular Session

Summary Of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing and joint select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

<u>Sponsor(s)</u> KOFFMAN TREAT		<u>Committee Report</u> OTP-AM MAJ ONTP MIN		<u>Amendments Adopted</u> H-262

LD 845 proposed to require new sources of greenhouse gases to be reported to the Department of Environmental Protection. It also proposed to require the department to create an inventory of greenhouse gas emissions associated with state-owned facilities and state-funded programs and to create a plan for reducing those emissions. The bill also proposed to require the department to enter into carbon emission reduction agreements with nonprofit organizations and businesses. Finally, the bill proposed to require the department to develop a long-term climate action plan for the State.

Committee Amendment "A" (H-262) was the report of a majority of the committee. The amendment proposed to replace the bill. The amendment proposed to direct the Department of Environmental Protection to create a greenhouse gas emissions inventory for state-owned facilities and state-funded programs; to seek to establish carbon emission reduction agreements with businesses and nonprofit organizations; to participate in a regional greenhouse gas registry; and to create an annual statewide greenhouse gas emissions inventory. The amendment also proposed to set state short-term, medium-term and long-term goals for the reduction of greenhouse gas emissions within the State. The amendment proposed to direct the Department of Environmental Protection to adopt a state climate action plan by July 1, 2004 and to direct the Department of Environmental Protection to evaluate, every 2 years, the State's progress toward meeting the reduction goals and to amend the action plan as
