121st Maine Legislature First Regular Session

Summary Of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing and joint select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Public Law 2003, chapter 34 exempts a person who performs work only on vessels under 200 feet long from the laws governing professional engineers.

LD 1004 **An Act To Clarify the Status of Regulated Water Utility Plumbing Permits** **PUBLIC 304**

<u>Sponsor(s)</u> DAVIS P		<u>Committee Report</u> OTP-AM		<u>Amendments Adopted</u> S-128
------------------------------	--	-----------------------------------	--	------------------------------------

LD 1004 proposed to direct the Plumbers' Examining Board to review and revise its rules to clarify and codify long-standing interpretation by water utilities and municipalities that excludes from permit requirements all installations of water meters, related valves and backflow prevention devices by a water utility or its contractor. The bill also proposed to specify that a municipality may not create a permit requirement for such installations.

Committee Amendment "A" (S-128) proposed to replace the bill. The amendment proposed to exempt the installation of stand-alone water meters, water meters in combination with nontestable backflow prevention devices and related valves by water utility personnel or water utility contractors from municipal plumbing inspection and permitting requirements. The amendment also proposed to require that a statement be included in any notice provided to a customer regarding entry to install such water meters or related valves that installation of a backflow preventor may necessitate installation by the customer of additional devices, such as an expansion tank, due to thermal expansion.
