Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

**An Act To Promote Sound Science in Climate Change Policy**

**PUBLIC 144**

<u>Sponsor(s)</u> JOY		<u>Committee Report</u> OTP-AM MAJ ONTP MIN		<u>Amendments Adopted</u> H-274
--------------------------	--	---	--	------------------------------------

LD 72 proposed to require that, when the Department of Environmental Protection adopts rules designed to reduce greenhouse gas emissions, the department must issue an estimate of the amount of global warming that will be prevented and the costs that will result from the rules requiring reduction in greenhouse gas emissions.

**Committee Amendment "A" (H-274)**, the majority report, replaced the bill and changed its title. It proposed to direct the Department of Environmental Protection to include in its biennial climate change evaluation a review of the cost-effectiveness of the actions taken toward meeting the greenhouse gas emissions reduction goals. It also proposed to require the department to submit a report of its evaluation to the joint standing committee of the Legislature having jurisdiction over natural resources matters and it proposed to authorize the committee to report out legislation relating to the evaluation to the second regular session of any Legislature.
