Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

## *Joint Standing Committee on Utilities and Energy*

3. Gives the commission general authority to adopt rules to implement the damage prevention laws;
4. Makes all Public Utilities Commission rules implementing the dig safe law major substantive rules. It provides that all existing rules of the commission remain in effect but that any amendments to those rules are subject to legislative review as major substantive rules;
5. Provides that when an underground facility is discovered during an excavation and the location of that facility was, prior to the discovery, unknown or unclear to the underground facility operator, the commission may direct that operator to determine and map the location of the facility for a reasonable distance, as determined by the commission, from the point of discovery; and
6. Requires the commission to adopt major substantive rules establishing standards for when and at what level penalties must be assessed for violations of the dig safe law. In developing the rules, the commission is directed to include consideration of evidence of the past record of successful excavations as well as the seriousness of the current violation.
