Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

LD 895 proposed to expand the authority of lobster management policy councils to propose rules, upon approval in a referendum in the management zone in which the rules would apply, to increase the length of time an apprentice must be enrolled in the apprentice program up to a maximum of 5 years; to specify that a sponsor of an apprentice must have held a Class I, Class II or Class III lobster and crab fishing license for at least 5 years; and to require that a person who completed an apprenticeship may enter a particular lobster zone only if the apprentice apprenticed in that zone.
