Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Joint Standing Committee on Labor

LD 995 proposed to help detect businesses with high unemployment insurance tax rates resulting from a high volume of layoff activity setting up shell companies and transferring their employees to the shell companies to get lower, new-employer unemployment insurance tax rates and deters those businesses from doing so. Federal legislation to address this type of unemployment tax rate manipulation was recently enacted, and the bill was designed to keep Maine law in compliance with federal law.

Committee Amendment "A" (S-97) proposed to incorporate language that was inadvertently omitted from the bill.

Enacted law summary

Public Law 2005, chapter 120 helps detect businesses with high unemployment insurance tax rates resulting from a high volume of layoff activity that set up shell companies and transfer their employees to the shell companies to get lower, new-employer unemployment insurance tax rates, and deters those businesses from doing so. This law keeps Maine law in compliance with federal law that was recently enacted to address this type of unemployment tax rate manipulation.
