First Regular Session and First Special Session

Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

**LD 1051**                      **Resolve, Establishing a Study Commission To Examine Water District Fees Assessed for Fire Suppression**                      **ONTP**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
COURTNEY CAMPBELL	ONTP	

LD 1051 was a concept draft pursuant to Joint Rule 208. It proposed to establish a study commission to examine water district fees assessed for fire suppression. The membership of the study commission would include interested parties throughout the State. The study commission would be charged with examining whether water district fees assessed for fire suppression are equitable and the ramifications of altering those fees and whether the amounts charged to municipalities should be limited in some way. The commission would be given authority to report its findings to the Second Regular Session of the 122nd Legislature.

The committee by letter requested that the PUC, working with certain stakeholder groups, develop materials and educational seminars so that municipalities and water utilities better understand the methodology for the calculation public fire protection charges and the rationality behind that methodology.

**LD 1052**                      **An Act To Require Municipalities To Institute Sewer Service Charges**                      **ONTP**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DAMON PINGREE	ONTP	

LD 1052 proposed to require municipalities after January 1, 2007 to pay for a municipal sewer or disposal system only through user fees and to prohibit a town from paying any such costs from other municipal funds. Currently municipalities that provide sewer service have the option whether or not to institute user fees to pay for some or all sewer system costs.

**LD 1065**                      **An Act To Promote Economic Development and Sustainable Energy**                      **CARRIED OVER**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
BRENNAN BLISS		

LD 1065 proposed to amend the law concerning the eligible resource portfolio requirement for competitive electricity providers. The bill proposed to:

1. Modify eligibility for the current 30% eligible resource portfolio requirement and rename it a Tier 1 portfolio requirement. It proposed to modify the definition of renewable resources that qualify for this requirement by eliminating reference to federally-qualified (PURPA) small power facilities; qualifying eligibility for wind facilities by requiring at least 50% of the wind power be generated on land of tribes federally recognized after January 1, 1979; and adding landfill gas to the list of eligible resources;
