Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
KOFFMAN RAYE	OTP-AM MAJ ONTP MIN	H-489

LD 1157 proposed to generate revenue to continue and expand the efforts of the Department of Environmental Protection to assist schools with the safe removal and disposal of hazardous materials, such as pesticides, mercury compounds and toxic, flammable and explosive laboratory and other chemicals. Revenue would be generated by a 30¢ fee on each unit of general use pesticide distributed for retail sale in this State. The fee would be assessed at the distributor level and would not apply to bulk containers of restricted or limited use pesticides for agricultural and commercial use.

Committee Amendment "A" (H-489) replaced the bill with a resolve and changed the title. The proposed amendment would direct the Department of Education and the Department of Environmental Protection to implement the provisions of the proposal dated May 10, 2005 regarding the removal of hazardous materials from schools. It would also direct the departments to report to the Joint Standing Committee on Natural Resources by January 15, 2006 on the effectiveness of their efforts and to recommend changes if necessary.

LD 1160

Resolve, To Increase Wetland Protection

RESOLVE 37

<u>Sponsor(s)</u> KOFFMAN DAMON	<u>Committee Report</u> OTP-AM	<u>Amendments Adopted</u> H-315
---------------------------------------	-----------------------------------	------------------------------------

LD 1160 proposed to apply all standards of the natural resources protection laws to Tier 1 wetlands. It proposed to require the Department of Environmental Protection, in Tier 1 wetland review, to consider impacts to the wetland from other regulated activities that occurred during the prior year and to extend the time the department has to review Tier 1 applications from 30 days to 60 days. It proposed to direct the Department of Environmental Protection to work with the Executive Department, State Planning Office and other interested parties to develop a Tier 1 wetlands compensation program, to review and recommend changes to the wetlands exemptions and to report to the Joint Standing Committee on Natural Resources by January 1, 2006.

Committee Amendment "A" (H-315) replaced the bill with a resolve and removed those sections of the bill that proposed to:

1. Apply all standards of the natural resources protection laws to Tier 1 freshwater wetlands;
2. Require the Department of Environmental Protection, in Tier 1 freshwater wetland review, to consider impacts to the wetland from other regulated activities that occurred during the prior year; and
3. Extend the time the department has to review Tier 1 applications.

The proposed amendment would replace those sections with a reporting requirement requiring the Department of Environmental Protection to evaluate the resources necessary to apply all standards in the Maine Revised Statutes, Title 38, section 480-D to projects eligible for Tier 1 review and to report to the Joint Standing Committee on Natural Resources with any recommendations and proposed legislation by February 1, 2006. The amendment also proposed to authorize the committee to report out legislation to the Second Regular Session of the 122nd Legislature and it proposed to change a report date from January 1, 2006 to February 1, 2006.
