STATE OF MAINE

127TH LEGISLATURE

SECOND REGULAR SESSION

LEGISLATIVE DIGEST OF BILL SUMMARIES AND ENACTED LAWS

This *Legislative Digest of Bill Summaries and Enacted Laws* contains summaries of all LDs and adopted amendments and all laws enacted or finally passed during the Second Regular Session of the 127th Maine Legislature.

The *Digest* is arranged alphabetically by committee and within each committee by Legislative Document (LD) number. The committee report(s), prime sponsor and lead co-sponsor(s), if designated, are listed below each LD title. All adopted amendments are summarized and listed by paper number. A subject index is included with each committee. An appendix provides a summary of relevant session statistics.

Final action on each LD is noted to the right of the LD title. The following describes the various final actions.

Joint Standing Committee on Agriculture, Conservation and Forestry

engineered seed stock, any product made from from animals fed genetically engineered food, medicine manufactured using genetically engineered plant or animal material or any other product containing genetically engineered materials within the laws regarding the labeling of genetically engineered products.

This bill requires the disclosure of genetic engineering of food, seed stock, products from animals fed genetically engineered food or medicines that were manufactured with genetically engineered plants or animals beginning January 1, 2017. It provides that food, seed stock, products from animals fed genetically engineered food and medicines for which the disclosure is not made are considered to be misbranded and subject to the sanctions for misbranding. The bill removes exemptions for products produced without knowledge that the products, or items used in their production, were genetically engineered; animal products derived from an animal that was not genetically engineered but was fed genetically engineered food; and products with only a minimum content produced by genetic engineering. The bill also removes the exemption from disclosure requirements as regards restaurants, alcoholic beverages or medical food. This bill increases the penalties for nondisclosure and misbranding to a Class E crime for the first offense and a Class D crime for the second and subsequent offenses.

The bill also repeals the contingent effective date established by Public Law 2013, chapter 436, section 2, subsection 1, thereby making Maine's genetically modified food products labeling law effective.

Committee Amendment "A" (S-434)

This amendment is the minority report of the committee. It removes most of the provisions of the bill. The amendment requires disclosure of genetic engineering at the point of retail sale for seed stock and provides that seed stock for which the disclosure is not made is considered to be misbranded and subject to the sanctions for misbranding. The amendment retains the provision of the bill that repeals the section of Public Law 2013, chapter 436 that provides that Maine's genetically modified food products labeling law does not take effect until four other contiguous states enact similar laws. The amendment repeals the provision that food may not be labeled as natural if it has been genetically engineered. The amendment also adds an appropriations and allocations section to the bill.

This amendment was not adopted.
