**LD 427      An Act To Give Certain Landowners First Priority for Antlerless Deer Permits      ONTP**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
PICKETT R DAVIS P	ONTP	

This bill amends the current antlerless deer hunting permit system to require that all antlerless deer permits available in a wildlife management district be issued to landowners of record who own at least 50 contiguous acres of land open to hunting by the public and have applied for the permit. It also provides that if the number of available antlerless deer permits in a wildlife management district exceeds the number of eligible landowner applications, the remaining permits must be issued to junior hunters who have applied for an antlerless deer permit in that district. If the number of antlerless deer permits available in a wildlife management district exceeds the number of eligible landowner applications and junior hunter applications, the commissioner is directed to issue the remaining permits as provided in current law.

**LD 471      Resolve, To Create the Commission To Study the Needs, Opportunities and Efficiencies Associated with the Production of Salmonid Sport Fish in Maine      Accepted Report A (ONTP)**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
GOLDEN J JACKSON T	ONTP OTP-AM OTP-AM	

This resolve creates the Commission To Study the Needs, Opportunities and Efficiencies Associated with the Production of Salmonid Sport Fish in Maine. The commission is required to submit its report and any accompanying legislation to the Joint Standing Committee on Inland Fisheries and Wildlife by January 30, 2018. The Department of Inland Fisheries and Wildlife is prohibited from making any expenditure of over \$150,000 to repair or upgrade its salmonid fish hatcheries until the report is received and its recommendations acted upon.

**Committee Amendment "B" (H-57)**

This amendment is a minority report of the committee. It replaces the resolve and requires the Department of Inland Fisheries and Wildlife to convene a working group to study, assess and evaluate salmonid fish culture facilities in the State and the associated production and distribution capabilities, opportunities, needs and contributions to the economy of the State of cultured salmonid fish and propose changes to the fish production laws and rules. A report from the working group is due by December 6, 2017 to the Joint Standing Committee on Inland Fisheries and Wildlife.

This amendment was not adopted.

**Committee Amendment "A" (H-56)**

This amendment, which is a minority report of the committee, amends the resolve to conform to the Joint Rules of the Legislature with respect to appointments to and chairs of the Commission To Study the Needs, Opportunities and Efficiencies Associated with the Production of Salmonid Sport Fish in Maine. The amendment also removes the provision that prohibits the Department of Inland Fisheries and Wildlife from spending over \$150,000 on fish hatcheries until the report of the commission is completed.

This amendment was not adopted.
