**Joint Standing Committee on Energy, Utilities and Technology**

This bill allows public utilities to offer or provide promotional allowances, such as rebates, discounts or similar reductions, to their customers or potential customers. The Public Utilities Commission is directed to adopt rules to implement the provisions of this bill.

**Committee Amendment "A" (H-151)**

This amendment replaces the bill. It allows a gas utility to offer a promotional allowance, instead of a public utility as proposed in the bill, and the rate for that promotional allowance takes effect when the schedule of rates is filed with the Public Utilities Commission and provided to the Efficiency Maine Trust, unless a later effective date is specified. A gas utility does not need to provide prior notice or receive approval from the commission in order to offer a promotional allowance.

**Enacted Law Summary**

Public Law 2017, chapter 83 allows a gas utility to offer a promotional allowance, and the rate for that promotional allowance takes effect when the schedule of rates is filed with the Public Utilities Commission and provided to the Efficiency Maine Trust, unless a later effective date is specified. Under this law, a gas utility does not need to provide prior notice or receive approval from the Public Utilities Commission in order to offer a promotional allowance.

The bill directs the Public Utilities Commission to establish by rule a program that would allow the creation of small transmission or distribution systems connecting an electricity generator with one or more industrial consumers located in close proximity to the generator, allowing for the sale or transfer of electricity from the generator to those consumers without use of the system of the transmission and distribution utility. The commission is directed to report annually to the Legislature on the program and whether it should be continued, expanded, limited or discontinued.
