# REPORT

### **OF THE**

# ATTORNEY GENERAL

for the calendar years

1959 - 1960

MHISTATE HERARY purpose. The application and correspondence between the Maine School Building Authority and the town specifically negates the use of funds derived from this bond issue for that purpose. The existing agreements cannot be altered without impairing third party rights.

To: Dr. Howard L. Bowen, Maine School Building Authority

Re: Expended Funds Re Auburn Project

In looking over the correspondence concerning payment of the \$45,-000.00 for the land of the Auburn High School, I note that \$4,500.00 was to be paid in cash and nine serial promissory notes in the sum of \$4,500.00 without interest, one maturing each year were to be treated as payment of this project. Therefore, in regard to your question of whether or not we should treat the \$4,500.00 as spent so that we may release Maine School Building Authority funds for the remainder of the project, I am of the opinion that we should treat the entire \$45,000.00 as having been spent. My reasons for this: (1) No money could be released for nine more years if we did not so treat it; (2) The arrangement for payment was agreed upon by the Maine School Building Authority and the underlying purpose was at the vendor's request; (3) We have title to the property free and clear of encumbrances at the present time; and (4) This arrangement has committed the City to payment in a different manner than usual but with the same net result. Therefore, the Authority should consider that if the remaining money has been spent, that the balance due on the property should be considered expended at this time.

Re: Rules and Regulations Re Grades of Sardines

I have your request for our opinion relating to rules and regulations relating to the grades of sardines. As I understand the facts, rules have been promulgated regarding packing of ¾ size (12 oz.) cans of mustard packs. Some of the lots have been inspected and found to be substandard. The query now raised is whether the Commissioner can declare a moritorium on the rules setting up these grades and whether or not, after hearing, new rules relating to these particular grades could be promulgated which would be retroactive, so as to make those lots presently substandard eligible for sale as standard sardines.
