FOREWORD

This booklet contains the history and final disposition of legislative documents and papers introduced at the first special session of the 107th Maine Legislature. The Legislative Information Office, in its efforts to monitor and provide an accurate account of such legislative activities, has published this concise handbook assembled with the aid of computer technology pursuant to the following order:

STATE OF MAINE

In Senate April 28, 1976

ORDERED, the House concurring, that there be prepared after adjournment of the present session, by the Legislative Information Officer, a Register of all the Bills and Resolves considered by both branches of the Legislature, showing the history and final disposition of each bill and resolve and that there be printed 600 copies of the same. The Legislative Information Officer shall mail a copy of the register to each member and officer of the Legislature and the State Law and Legislative Reference Library shall receive such number of copies as may be required. (SP 818)

It is important to point out that this handbook is a summary report only and not meant as a substitute for the official Senate and House journals or an actual paper or document itself. Should more detailed information be desired, please feel free to contact the Legislative Information Office at 289-3021 or the respective Senate and House offices for assistance. It is hoped that this booklet will benefit all who have occasion to use it, and any comments and suggestions for improvement are welcome.

For ease of use you will note each entry has been inserted in a given order: Index by major, minor and detail subjects - Title - Paper and Legislative Document numbers - sponsor, cosponsor - Committee of Reference - Hearing date - Committee report - Amendments - Final disposition.

Also please note the following list of abbreviations were used in compiling this publication:

The Office of Legislative Information has compiled this History and Final Disposition with the aid of the Maine Bill Status Reporting System. This system, using the State Computer operated by Central Computer Services, furnishes to Legislators, State Officials, the Press and the public during each legislative session detailed status information on each piece of legislation pending before the Legislature. In addition, the bill status reporting system provides grouping of pending legislation in the following four categories: subject matter, sponsor, committee of reference, and document number. All of this information, updated each legislative day by the office, is quickly and accurately available to any inquirer, either through Information Office personnel or through self-service on a computer terminal located within that office.

The bill status system is therefore an invaluable tool for legislative planning and for the following of legislation through the legislative process. The Office of Legislative Information welcomes any suggestions on how to make the system even more useful to the Legislature and to the public.
