FOREWORD

The History and Final Disposition of Legislative Documents includes a summary of the Legislature's action on all legislative documents considered during the Second Regular Session of the 116th Legislature. The document is produced from information which is compiled by the Legislative Information Office throughout the legislative session and maintained on a computerized bill status system. Status information is available through designated public computer terminals located throughout the State House and by remote access on a subscription basis through the Legislature's Information Network (LINK). Weekly printed reports are also available on a subscription basis through the Clerk of the House.

The primary listing of legislative documents in this volume is organized by the joint standing committee to which bills were referred in the Second Regular Session. The following information is included for each legislative document:

- Legislative document number
- House or Senate paper number
- Sponsor and cosponsors
- Public hearing date
- Committee report
- Amendments adopted in the House and Senate
- Final disposition of the legislative document

A list of the Legislature's Joint Standing Committees and their jurisdictions follows this Foreword. Users of this volume should note that the 116th Legislature established two Joint Select Committees: the Joint Select Committee on Corrections and the Joint Select Committee on Rules to whom bills were also referred.

Following the listing by committee is a series of indexes which are designed to assist the user in finding the bill or subject needed. The **Table of Contents** includes a list of these indexes.

The **Subject Index** uses terms to describe the scope and topics of the bill and its amendments. Most bills are indexed under more than one subject, and cross references are designed to assist the user in finding the subject. Appropriations bills are indexed showing the part and section where the subject can be found within the legislative document. Other bills with a funding section are also indexed under the "Appropriations" heading. In cases where an amendment introduced a new topic, a subject entry appears for that topic whether or not the amendment is adopted. If an amendment deletes a topic from a bill, the subject is left in the index as part of the history of the bill; thus the Subject Index indexes all legislative documents in any form in which they have been considered.

Finally, a list of bills that were vetoed by the Governor is also included in this document.

The History and Final Disposition of Legislative Documents is a summary report only and does not replace the official Senate and House journals or the actual legislative documents. If more detailed information about the status of bills or their contents is desired, please contact:

**** Editor's Note:** Pursuant to Joint Order H.P. 1416, which authorized the Judiciary Committee to report out legislation regarding Casino gambling, the Committee submitted a divided report consisting of four separate recommendations. Reports A, C, and D were subsequently printed as separate L.D.'s (1998, 1999, 2000). The three L.D.'s were later defeated by the Legislature.
