ONE HUNDRED AND FOURTH LEGISLATURE

Legislative Document

No. 920

H. P. 706

House of Representatives, February 19, 1969

Referred to Committee on Public Utilities. Sent up for concurrence and ordered printed.

BERTHA W. JOHNSON, Clerk

Presented by Mr. Gauthier of Sanford.

STATE OF MAINE

IN THE YEAR OF OUR LORD NINETEEN HUNDRED
SIXTY-NINE

AN ACT Amending the Sanford Sewer District.

Be it enacted by the People of the State of Maine, as follows :

Sec. 1. P. & S. L., 1947, c. 169, § 13-A, amended. The first paragraph of section 13-A of chapter 169 of the private and special laws of 1947, as enacted by section 5 of chapter 153 of the private and special laws of 1957, is amended to read as follows :

Where, upon petition of the owners or persons in possession of at least 51% of the front footage of lots or parcels of land to be benefited, the district through its board of trustees has voted to construct and has constructed and completed within its geographical limits, a sanitary sewerage line together with its appurtenances and connections, being a lateral line or a main or sub-main, so called, ~~and expressly excluding from the operation of this section interceptors, outfall sewers or trunk lines~~ and such sanitary sewerage line being where such a line did not previously exist, the trustees of said district shall determine what lots or parcels of land have benefited by such line, together with its appurtenances and connections, and the trustees shall then proceed to cause ~~a part of the whole cost~~ of such construction and completion ~~not exceeding one half of the whole cost~~ to be apportioned and assessed upon the lots or parcels so benefited, whether such parcel or lot is occupied or not, and against the owner thereof or person in possession.

Sec. 2. P. & S. L., 1947, c. 169, § 13-A, amended. Section 13-A of chapter 169 of the private and special laws of 1947, as enacted by section 5 of chapter 153 of the private and special laws of 1957, is amended by adding at the end, a new paragraph, as follows :

If petition for construction of a sanitary sewerage line together with its appurtenances and connections, being a lateral line or a main or a sub-main, so called, would, in the opinion of the trustees, require the construction of interceptors, outfall sewers or trunk lines, the trustees would then cause the proposed construction of the interceptors, outfall sewers or trunk lines, to be surveyed by a licensed engineer and the whole cost of the project would be negotiated by the trustees with the petitioner.
