Appropriation; for construction of early childhood educational facility at Pleasant Point. Resolved: That there is appropriated from the Unappropriated Surplus of the General Fund the sum of \$83,500 to the Department of Indian Affairs to construct an early childhood educational facility for the Passamaquoddy Tribe at Pleasant Point, Washington County.

STATEMENT OF FACT

At the present time, there is no room for such educational program as early childhood, vocational education, Indian library and career development at the Pleasant Point Reservation. The school committee has learned that federal funds can be obtained to provide an early childhood Headstart Program, provided facilities to house the program are made available. In view of these needs and the expanding population on the reservation, the following facility is respectfully requested.
