General Purpose Aid

§ 3731. General purpose aid, defined

To help equalize educational opportunity and to assist administrative units in providing an adequate educational program for all pupils a sum of money shall be distributed through an equalization formula. It is declared that the sum to be distributed through the equalization formula shall equal at least 1/3 of the average per pupil operating cost for all public schools in the State. Operating costs shall cover the fiscal year which precedes the convening of the Legislature. They shall include all expenditures except transportation, community services, capital outlay items and debt service, reduced by tuition receipts. In addition to the sum of money distributed under the equalization formula, each unit shall be reimbursed a percentage of its expenditures for the transportation, board of pupils, school bus purchases and the education of handicapped pupils.

From the aid computed for each unit shall be deducted a sum of money which shall be paid directly to the superintendent of schools under sec-

(Filing No. H-769)

tions 154 and 155. This sum shall be equal to the amount computed under the appropriate sections of this Title for distribution in the fiscal year 1969-70 and shall be frozen at this amount until July 1, 1975. If the aid of the unit is not greater than the amount to be withheld, the unit shall pay the entire share of the superintendent's costs from local funds and any state aid that is payable to the unit shall be paid directly to the unit. No new contracts shall be written extending beyond July 1, 1974, which call for direct payments of state aid toward the superintendent's costs from local funds and any state aid that is payable to the unit shall be paid directly to the unit. No new contracts shall be written extending beyond July 1, 1975, which call for direct payments of state aid toward the superintendent's salary.

Administrative units shall pay teachers an amount at least equal to the minimum salary law; and shall employ at least one teacher for each 30 elementary school pupils in average daily membership except in the kindergarten where the ratio shall not exceed one teacher to 60 pupils and at least one teacher for 25 high school pupils.

§ 3732. Computation

A sum of money to be distributed under an equalization formula to maintain the state's share at a minimum of 1/3 of the operating cost as defined in section 3731 shall be recommended by the State Board of Education to the Bureau of the Budget. The Bureau of the Budget shall include a recommended amount in the Part I budget that shall represent at least 1/3 of the operating cost for all public schools defined.

Equalization formula

(Filing no. H-769)

Definition of Pupils: The number of resident pupils on October 1st and April 1st for the fiscal year preceding the convening of the Legislature shall be averaged and used for all computation required in this chapter; any student graduating from grade twelve during the school year prior to April 1st shall be counted as though he were in attendance on April 1st of that year. Pupils attending school on a part-time basis shall be counted in proportion to the time attended in order to insure fair and equitable treatment in the distribution of state aid.

The amount of money to be distributed to each municipality and administrative unit shall be computed in accordance with the following equalization formula:

<u>State Valuation</u>			<u>Number of Pupils</u>		<u>The Equalization Amount</u>
<u>per Pupil at</u>		<u>Base</u>	<u>in the Municipality</u>		
<u>Mid Point Per</u>	X	<u>Rate</u>	<u>as Defined in this</u>	=	
<u>Pupil Valuation</u>		<u>per Pupil</u>	<u>Section in Year</u>		<u>per Municipality</u>
<u>of Municipality</u>			<u>Preceding the Con-</u>		
			<u>vening of the Leg-</u>		
			<u>islature</u>		

Prepare a list showing the per pupil valuation and the number for each municipality. Rearrange the list according to per pupil valuation from high to low. From this list determine the midpoint in the pupil population and read the corresponding per pupil valuation. The figure thus determined shall be rounded to the nearest thousand. This per pupil valuation shall be called the state valuation per pupil at midpoint.

Per pupil valuation shall be determined by dividing the number of pupils in the municipality as defined in this section into the state valuation as filed by the State Tax Assessor.

The total equalization sum available shall be divided by the number of resident pupils as defined in this section to determine a per pupil

(Filing No. H-769)

rate for the municipality with the median state valuation per pupil. The number of dollars per pupil need in the formula is determined by dividing the median state valuation per pupil by the state valuation per pupil at mid point and multiplying the per pupil rate for the municipality with the median state valuation by that result. The amount determined shall become the base rate per pupil.

If the state valuation per pupil at mid point divided by the per pupil valuation of a municipality results in a factor of more than 3.0, then 3.0 shall be used in the computation.

The average sums of money expended in the 2 fiscal years preceding the convening of the Legislature by administrative units for public school pupils for transportation, school bus purchases and board of pupils shall be multiplied by the percentages in Table I and the results shall become part of the general purpose aid of the unit.

Any administrative unit which has maintained an approved program of education for exceptional children shall receive reimbursement from the State for all costs in excess of the unit's per pupil expenditure.

The per pupil valuation of each municipality shall be determined as provided in this section. The commissioner shall establish the applicable percentage for each eligible unit from the formula in Table I on January 1st of the year in which the Legislature convenes in regular session. The percentage thus determined shall be applicable for the next 2 fiscal years of the State, July 1st to June 30th.

(Filing No. H-769)

TABLE I

The percentage of state aid for each municipality shall be determined by dividing the median state per pupil valuation by the state per pupil valuation of the municipality and multiplying the result by 75%. No administrative unit may qualify for more than 97% nor less than 13%.

In the case of School Administrative Districts the cost shall be distributed to each municipality in direct proportion to the number of pupils in each municipality within the district on April 1st in the year preceeding the convening of the Legislature. Said costs shall be multiplied by the appropriate percentage in Table I and the subsidies for each municipality within the district shall be added together to arrive at a district total.

Any unit which fails to appropriate by local taxation annually \$30 per inhabitant as determined by section 851 for the support of its public schools for each of the 2 years preceeding the convening of the Legislature shall receive the same percentage of its general purpose aid as the percentage determined when the unit's appropriation per inhabitant from local taxes for public schools is divided by \$30.

If the unit is a School Administrative District, add 10% to the sums determined in this chapter in compliance with section 3456. The subsidy for a newly formed School Administrative District shall be the sum of the amounts that the towns would have received plus the 10% bonus. The total aid to a unit in any year may not be less than 90% of the aid received by the unit in the preceeding year.

To the subsidy thus determined shall be added \$15 for every student completing a driver education course during the preceeding year.

The state valuation used in the above computations shall be as

(Filing No. H-769)

determined by the State Tax Assessor in the statement filed by him, as provided in Title 36, section 381. The computation of state aid for each unit shall be subject to correction in accordance with the final statement filed by the State Tax Assessor on December 1st.

Community school districts are not considered to be administrative units for subsidy purposes. Each participating town's subsidy allotment shall be computed as set forth in this section. The state subsidy covering the town's share of the cost of the community school district shall be paid to the community school district from the town's subsidy allotment with the remainder being paid directly to the town.

§ 3733. Tax effort

If funds become available by legislative appropriation, each municipality shall be reimbursed from a fund to be known as the Tax Effort Fund, a percentage of the fund if its tax effort for all municipal purposes, in the year preceeding the convening of the Legislature, exceeded the median tax effort of all municipalities in the State. The tax effort for each municipality shall be determined by dividing its assessments on property by the state valuation as published in the year preceeding the convening of the Legislature. For all municipalities that exceed the median tax effort, the sums of money by which each unit exceeds the median shall be added together and a percentage shall be determined for each unit by dividing its excess assessment by the total excess assessment for the State. Any funds distributed for tax effort shall be distributed on the basis of the percentage thus determined.

The tax effort funds available shall be distributed to those units who equal or exceed a part of the median school tax effort of the State

(Filing No. H-769)

in accordance with the following table. School tax effort shall be determined by dividing total school appropriations by the state valuation of the municipality for the year preceding the convening of the Legislature.

<u>State Valuation Per</u> <u>Resident Pupil</u>	<u>Percent of Median</u> <u>School Tax Effort</u>
\$ 4,500 and under	100%
\$ 4,501 - 7,500	90%
\$ 7,501 - 9,000	80%
\$ 9,001 - 15,000	70%
\$15,001 and over	60%

§ 3/34. Unusual school enrollment increases.

Whenever a unit experiences an enrollment increase of resident pupils between October 1st in one school year and October 1st in the next school year in excess of 3%, or whenever a private or parochial school closes or discontinues a portion of the grades served and the pupils become the responsibility of the administrative unit, it may apply to the State Board of Education for a subsidy adjustment. Such an adjustment shall be computed and paid before December 31st, if proof is furnished and the board makes a finding of fact that a local tax hardship does exist. In such a case, such pupils shall be counted for the purpose of computing the subsidies allotted such a unit as if they had been attending school in the administrative unit during the applicable subsidy year. When the additional pupils do not cause a tax hardship in the current year and proof is furnished that a large increase in expenditures would be required in the next succeeding fiscal year of the unit, a subsidy

(Filing No. H-769)

adjustment may be made and paid during the next succeeding year of the unit. The state board shall have the authority to adopt reasonable rules and regulations to carry out the intent^{of} this section.

Sec. 58. R.S., T. 36, § 451, repealed and replaced. Section 451 of Title 36 of the Revised Statutes, as last repealed and replaced by section 6 of chapter 556 of the public laws of 1973, is repealed and the following enacted in place thereof:

§ 451. Rate of Tax

For necessary expenses of local and State Government, a tax is arrived at the rate of 16.5 mills on the dollar applied to a 100% valuation for the property tax year commencing April 1, 1973 and increasing thereafter to 18 mills effective April 1, 1974, 19.5 mills effective April 1, 1975, 21 mills effective April 1, 1976, 22.5 mills effective April 1, 1977 and 24 mills effective April 1, 1978 and every year thereafter upon each municipality, township and each lot and parcel of land not included in any township in the State. In any event such rate shall never exceed whatever shall from time to time be the weighted average municipal tax rate. The "weighted average municipal tax rate" means the total municipal property taxes levied state wide for the previous year as determined by the State Tax Assessor from the annual return of municipal assessors pursuant to section 383 divided by the state valuation of municipalities in effect for the previous year adjusted to a 100% basis. The valuation as determined by the State Tax Assessor, as set forth in the statement filed by him as provided by section 381 or section 381-A, shall be the basis for the computation and apportionment.

(Filing No. H-769)

Sec. 57. R.S., T. 36, §453, repealed and replaced. Section 453 of Title 36 of the Revised Statutes, as last repealed and replaced by section 7 of chapter 556 of the public laws of 1973, is repealed and the following enacted in place thereof:

§ 453. Distribution of tax to municipalities and apportionment

¶ The Treasurer of State, in his said warrants, shall require the said mayor and aldermen, selectmen or assessors, respectively, to pay or to issue their several warrants requiring the collectors of their several municipalities to collect and pay to the treasurers of their respective municipalities the sums against said municipalities required by this subchapter.

Sec. 60. R.S., T. 36, §891-A, repealed. Section 891-A of Title 36 of the Revised Statutes, as enacted by section 8 of chapter 556 of the public laws of 1973, is repealed.
