STATE OF MAINE

IN THE YEAR OF OUR LORD NINETEEN HUNDRED
SEVENTY-SIX

AN ACT to Revise and Reallocate Appropriations from the General Fund for the Expenditures of State Government for the Fiscal Years Ending June 30, 1976 and June 30, 1977 and Changing Certain Provisions of the Law Necessary to the Proper Operations of State Government.

Be it enacted by the People of the State of Maine, as follows:

Sec. 1. Appropriations from General Fund. In order to provide for necessary expenditures of State Government and other purposes for the fiscal years ending June 30, 1976 and June 30, 1977 the following sums or as much thereof as shall severally be found necessary, as designated in the following tabulations, are appropriated out of any moneys in the General Fund not otherwise appropriated.

Sen. 2. Allotments required. Upon receipt of allotments duly approved by the Governor and Council based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures of these appropriations, together with expenditures for other purposes necessary to the conduct of State Government on the basis of such allotments and not otherwise. Allotments for personal services, capital expenditures and amounts for all other departmental expenses shall not exceed the amounts shown in the budget document or as they may be revised by the Committee on Appropriations and Financial Affairs unless recommended by the State Budget Officer and approved by the Governor and Council.

Sec. 3. Temporary curtailment of allotments. Whenever it appears to the Commissioner of Finance and Administration that the anticipated income

and other available funds of the State will not be sufficient to meet the expenditures authorized by the Legislature, he shall so report to the Governor and Council and they may temporarily curtail allotments equitably so that expenditures will not exceed the anticipated income and other available funds.

Sec. 4. Transfers limited. The Governor and Executive Council shall not approve any allotment revision for a department by which funds are transferred from one quarter to another, when the transfer will result in a request for a deficiency appropriation at a special or regular session of the Legislature.

Sec. 5. Personal Services appropriation. The figures in parentheses shown above each dollar amount provided for Personal Services in this Act, or as adjusted by legislative action, shall represent the total number of permanent positions at any one time. The appropriations made for Personal Services are made with the provision that the total number of permanent positions in any account shall not be increased during either year of the biennium over the total numbers shown in parentheses and used by the Legislature in computing the total dollars to be made available for Personal Services. The amounts appropriated for Personal Services include funds for the state's share of state employees retirement. The State Controller shall transfer the state's share to the Maine State Retirement System as soon as practicable after each payroll is paid.

Sec. 6. Personal Services review. The Budget Office, during this biennium, shall continually review with all departments the status of their personnel with the purpose of determining that all departments are expending Personal Service moneys within the intent of the Legislature and shall report any expenditures contrary to such intent of the Governor and Council and the Legislative Finance Officer.

Sec. 7. State Pay Policy. In order to attract and retain employees of unusual merit and ability to the service of the State of Maine, to stimulate higher efficiency among the personnel, to provide skilled leadership, to reward merit and to ensure to the people and the taxpayers of the State of Maine the highest return in services for the necessary costs of government, it is hereby declared to be the policy of the state to provide equal pay for equal work.

Sec. 8. Personal Services savings and flexibility. Savings accruing within appropriations made for permanent positions may be used for nonrecurring personal services or retirement costs when recommended by the department head and the State Budget Officer, and approved by the Governor and Council. Any classification of a position and any allocation or reallocation of a position made by the director or the State Personnel Board pursuant to this section shall become effective on the first day of the fiscal year following approval by the State Budget Officer and the appropriation of funds therefor, except that the State Budget Officer may, if he determines that sufficient funds exist, authorize an effective date prior to the first day of the ensuing fiscal year. Copies of all actions and certifications shall be furnished to the Legislative Finance Officer.

Sec. 9. Merit rating required. The State Personnel Board is directed to require merit ratings on each individual who is recommended for a salary in-

crease on a form prescribed by the board. Department heads are directed that the granting of merit increases be scrutinized and documented carefully. It is the intent of the Legislature that in instances where merit increases are not earned and warranted they shall be denied. The Governor and the State Budget Officer when next preparing a budget may include only sufficient funds for merit increases for a maximum of 60% of those eligible for any increase. The State Budget Officer shall instruct departments to prepare their next work programs on this basis. Each of the increments within the 7 steps provided for in the compensation plan shall be awarded on the basis of merit without regard to longevity.

Sec. 10. Number of necessary employees. The Governor and the State Budget Officer when next preparing a Budget Document may at their discretion adjust the figures in parentheses, representing numbers of permanent positions, to reflect the number of positions which in their opinion is necessary to the proper operation of each department, institution or agency.

Sec. 11. New or expanded programs. No department shall establish new programs or expand existing programs beyond the scope of those programs already established, recognized and approved by the Legislature, until such program and the method of financing shall be submitted to the Budget Office for evaluation and recommendation to the Legislature, and until funds are made available therefor by the Legislature.

Sec. 12. Federally funded programs. It is the intent of the Legislature that in the event matching federal funds are not available as anticipated for programs in this Act, there is no obligation to provide state funds in excess of the appropriations listed in this Act. Positions entirely or partially funded by federal or other than state sources of funds shall be considered as limited period positions, notwithstanding the figures in parentheses representing numbers of employees, should such funds be withdrawn or reduced.

Sec. 13. Travel limitations. It is the intent of the Legislature that out-of-state travel be limited. Any state employee who travels out-of-state on state business, such as law enforcement, collecting, bidding, industrial development, loans, etc., may continue to do so. The Legislature directs that department heads hold down cost of all travel where it is not absolutely needed. Any state employee who travels in-state shall not be reimbursed for noon meals unless the meal is part of an organized meeting, or program or overnight travel.

Sec. 14. Equipment to be reviewed. The Commissioner of Finance and Administration, through the State Purchasing Agent or such other agent as he may choose, shall conduct a thorough review of all types of equipment, owned, leased or otherwise available to the several departments and agencies of the State, regardless of the source of supporting funds, combining their use, providing centralized facilities, or eliminating existing equipment and facilities, as he believes to be in the most economical, most efficient and best interests of the State.

Sec. 15. Motor vehicle replacement policy. The State Purchasing Agent is directed to require that requisitions for replacement motor vehicles include

the age and total mileage of the motor vehicle being replaced. For the purposes of this section, motor vehicles are defined as passenger cars, panel and pickup trucks, excluding those vehicles operated by the State Police. It is the intent of the Legislature that motor vehicles shall have been in service for at least 5 years or 50,000 miles before they are replaced. This policy shall also be adopted by the State Budget Officer when next preparing a Budget Document. Exceptions to the established replacement policy shall require the prior approval of the Governor and Council.

Sec. 16. Significant action recommended by Budget Officer. The Budget Office shall inform the Committee on Appropriations and Financial Affairs through the Legislative Finance Office of significant action recommended by it in the performance of the budget responsibilities hereby assigned.

Sec. 17. Other Fund Payments. There shall be paid from the General Highway Fund and all other special revenue funds the cost of accounting, auditing, purchasing and legal services furnished from the General Fund appropriations. This revenue shall be credited to the General Fund.

Sec. 18. Year-end closing. The controller is authorized to close the books as soon as practicable after the close of the fiscal years ending June 30, 1976 and June 30, 1977. Any bills presented after those dates may be paid from appropriations for the ensuing year on recommendation of the controller if within the amounts of approved allotments.

Sec. 19. Appropriation balances at year end. At the end of each fiscal year, all unencumbered appropriation balances representing state moneys, except those that carry forward as provided by law, shall lapse to Unappropriated Surplus as provided by the Revised Statutes of 1964, Title 5, section 1544. At the end of each fiscal year, all encumbered appropriation balances shall not be carried more than once, except in those accounts which carry forward from year to year by law.

Sec. 20. The State Budget Officer is directed to take appropriate action as provided in the last paragraph of the Revised Statutes, Title 5, section 1667 if lapsed balances from 1975-76 are not sufficient to fund the appropriations of 1976-77 under this Act.

Sec. 21. Other appropriation measures. It is intended that the language in the preceding sections of this Act shall apply to all other appropriations measures enacted by the Legislature.
