Statement of Fact

The intent of the amendment is to provide for greater public participation in and public review of the operation of the Maine Turnpike Authority. According to the amended version of the bill expenditures for the construction and reconstruction of inter-connecting access roads must be included in the budget of the Department of Transportation and approved by the Legislature. In addition, major capital improvements in excess of \$500,000 undertaken by the Maine Turnpike Authority must be reviewed by the Department of Transportation for environmental assessments and impact and subjected to public hearings prior to final determination by the Department of Transportation.

The amended version of the bill increases the membership of the authority from 4 to 6 members and requires legislative confirmation of the members. Each member is limited to 2

complete terms.

Another change proposed in the amendment is the adjustment of a barrier type toll system. If enacted, the amendment will establish ~~The~~ more than 4 toll plazas for through traffic on the turnpike

and only one toll plaza for traffic traveling north from Portland. <sup>will be</sup>

In addition, toll plazas/located in strategic areas that will permit intraurban travel on the turnpike without charge. The authority is also directed to provide commuter tickets for automobile travelers.

The amended version of the bill also changes some of the provisions in regard to the issuance of bonds. A ceiling of \$25,000,000 is established as the limit for the amount of bonds outstanding at any one time. In addition, bond issues are limited to 20 years rather than 30 years as provided in the bill.
