Sec. 4. 20 MRSA §3749, as amended by PL 1975, c. 746, §24-V,
is repealed and the following enacted in its place:

§3749. Local funds without state participation

In addition to the funds available under section 3748, any
local administrative unit is authorized to raise and expend funds
as follows.

1. Local addition to allocation of state funds. In addition to the allocation of state funds provided by this chapter and such appropriations that may be made under section 3748, subsection 4, any administrative unit may raise and expend the difference between its computed elementary and secondary per pupil operating costs for the base year, as adjusted, and the basic elementary and secondary per pupil operating rates, respectively, as established section 3747, under/subsections 1 and 2. The total amount authorized for any administrative unit shall be computed by multiplying the above differences by the average number of resident elementary and secondary pupils, respectively, who are enrolled on April 1st and October 1st of the calendar year immediately prior to the year of allocation.

2. Calculation of operating costs. For the purposes of this chapter, moneys raised under subsection 1 shall be included in any future calculation of the administrative unit's elementary and secondary per pupil operating costs, but shall not be included in any future calculations of the state average or total operating costs.

3. Hardship waiver. If any ^{unit} Petitions → the State Board of Education and demonstrates that unusual circumstances require additional appropriations and expenditures in order to avoid serious educational hardship in the unit, the State Board of Education shall grant authority to the unit to make additional appropriations for school purposes. Moneys appropriated under such a special grant of

authority by the State Board of Education shall be included in any future calculations of the administrative unit's elementary and secondary per pupil operating costs, but shall not be included in any future calculations of the state average or total operating costs.

4. Major capital projects. In the event the administrative unit undertakes major capital projects without the approval of the State Board of Education, such projects shall meet the requirements of all other statutes and shall not be reimbursed with state funds.

5. Spending limit. No unit shall raise and expend funds for purposes of elementary and secondary education except as authorized in this chapter. '

Statement of Fact

The purposes of this amendment are to:

1. Authorize units to raise sufficient moneys locally to make up the difference between the unit's per pupil costs in the base year and basic per pupil operating rates as established by the Legislature;

2. Direct that these moneys should be included in future calculations of the local unit's per pupil costs, but should be excluded from future calculations of state average and total operating costs;

3. Authorize any unit to raise additional money under a 'hardship waiver' if it can demonstrate to the State Board of Education that it will experience severe educational hardship if it is not permitted to raise the money; and

4. Direct that any money raised under a hardship waiver should be included in the calculations of the unit's future per pupil costs, but should be excluded from future calculations of the state coverage and total operating costs.
