Statement of Fact

The purpose of this amendment is to provide permanent tax relief of \$12.1 million. The specific tax relief measures are listed in the fiscal note.

This amendment also counteracts the present effect of the federal new jobs credit on Maine taxable income. The federal credit is partially offset by a federal requirement that the taxpayer's normal deduction

for wages paid be reduced by the amount of credit. Since Maine does not allow the credit, use of the federal adjusted gross income figure, which includes the credit offset, would place the taxpayer in a worse position for Maine income tax purposes than if the new jobs credit did not exist. This effect would offset the incentive established by the federal credit and tend to frustrate the federal objective of job creation.
