'SUBCHAPTER IV

ASSESSMENT OF FOREST RESOURCES

§8871. Maine's forests

The Legislature finds that the forests of Maine have been subject to increased demand for timber, increased pressure from competing land uses and significantly increased mortality losses in the last decade. In view of the critical importance of the forest resource to the State's economy, it is essential that the State have the capability to study changing forest resource trends. To obtain sufficient information about the present and future status of Maine's forests, extensive additional surveys, studies and analyses are necessary.

§8872. Assessment of forest resources

The Department of Conservation is hereby authorized and directed to conduct such studies, surveys and analyses as are necessary to provide State Government, the forest industry and Maine citizens with an adequate assessment of Maine's forest resources. These studies and surveys may include, but need not be limited to, surveys of wood utilization by primary and secondary wood processing industries, surveys of forest regeneration, analyses of volume tables and programs to enhance the usefulness and availability of available data.

§8873. Annual report

The Commissioner of Conservation shall provide an annual report no later than October 1, 1981 to the Legislature detailing the status of work performed pursuant to this chapter.

§8874. Cooperation

The activities authorized hereunder shall be performed in cooperation with relevant federal, state and local agencies, as well as private and other nongovernmental groups concerned with Maine's forests. The work shall be fully coordinated with the ongoing departmental and federal forestry program planning efforts.

§8875. Authority

The Department of Conservation is hereby authorized to enter into agreements, to secure the services of contractors and consultants and accept and expend funds from other governmental agencies in order to carry out the purposes of this chapter.'
