Amend the bill in section 3, in subsection 1, in the next to the last line (page 3, line 23 in L.D.) by striking out the following: "~~consider~~ assure rate design" and inserting in its place the following: 'consider rate design'

The amendment restores the original word "consider." It retains the intent of the bill to use the phrase "rate design stability" throughout rather than "rate stability." It is noted that the original statement of fact was in error. It should have read:

22  
23  
24  
25  
26  
27

"The purpose of this bill is to clarify the Public Utilities Commission's rate design stability responsibilities. It makes clear that the concept of rate design stability is intended to apply to rate design issues and not to overall revenue needs of the utility."
