Sec. 3. 12 MRSA §6112, as enacted by PL 1985, c. 254, is repealed and the following enacted in its place:

§6112. Labeling of food products containing surimi

No food product may be sold in this State consisting of or containing surimi unless the packaging containing the food product is clearly and conspicuously labeled as "imitation lobster," "imitation crab," "imitation" followed by the name of the seafood imitated, "processed seafood," "surimi," "lobster-processed seafood salad," "crab-processed seafood salad" or other terms as approved by the Department of Marine Resources through rules adopted in accordance with Title 5, chapter 375, subchapter II. Any term approved by that department shall be sufficient to notify the public that the product contains surimi.

18 Sec. 4. 12 MRSA §6113, as enacted by PL 1985, c. 19 254, is repealed and the following enacted in its 20 place:

§6113. Serving food containing surimi

No food containing surimi or a surimi product may be served in any eating establishment in the State whether for consumption on or off the premises, unless on the menu and all notices advertising the food it is clearly and conspicuously labeled as "imitation lobster," "imitation crab," "imitation" followed by the name of the seafood imitated, "processed seafood," "surimi," "lobster-processed seafood salad," "crab-processed seafood salad" or other terms as approved by the Department of Marine Resources through rules adopted in accordance with Title 5, chapter 375, subchapter II. Any term approved by that department shall be sufficient to notify the public that the product contains surimi.

- 36 Sec. 5. 22 MRSA §2157, sub-§2 is amended to 37 read:
- 2. Sale under another name. If it is offered for sale under the name of another food or under a name not permitted by Title 12, section 6112, for products containing or consisting of surimi;

 The purpose of this new draft is to clarify the law pertaining to the labeling of seafood, as did the original bill. Because the original bill made the law more complicated, this new draft was written to clarify existing law rather than replace it. Under the new draft, anyone selling products containing surimi will be required to label the product by selecting any one of a list of terms. The list of approved terms is designed to alert the public that the product contains a processed seafood, which may contain additives and not pure lobster, crab, other specific shellfish or groundfish. The new draft adds a provision allowing the Department of Marine Resources to add terms to the list through rulemaking.
