13 person's covered expenses, subject to limits on the

28 in the State, medical economic factors as may be
29 deemed appropriate and promulgate benefit levels, de-
30 ductibles, coinsurance factors, exclusions and limi-
31 tations determined to be generally reflective of and
32 commensurate with health insurance provided through a
33 representative number of large employers in the
34 State.

35 3. Deductibles and coinsurance. The organization
36 coverage shall provide a deductible or a choice of
37 deductibles of not less than \$500 nor more than
38 \$1,000 a year per individual and coinsurance of 20%.

1 The coinsurance and deductibles, in the aggregate,
2 shall not exceed \$1,500 per individual nor \$3,000 a
3 family per year.

4 4. Preexisting conditions. Organization coverage
5 excludes charges or expenses, except as allowed in
6 paragraph A, B or C, incurred during the first 90
7 days following the effective date of coverage as to
8 any condition, which during the 90-day period immedi-
9 ately preceding the effective date of coverage, had
10 manifested itself in such a manner as would cause an
11 ordinarily prudent person to seek diagnosis, care or
12 treatment or for which medical advice, care or treat-
13 ment was recommended or received as to that condi-
14 tion.

15 A. The preexisting condition exclusions shall be
16 waived for those persons who enroll in the plan
17 during the first 6 months of the plan's opera-
18 tion. Persons enrolling after the first 6 months
19 will be subject to preexisting condition exclu-
20 sions.

21 B. The preexisting condition exclusions shall be
22 waived to the extent to which similar exclusions,
23 if any, have been satisfied under any prior
24 health insurance coverage which was involuntarily
25 terminated, provided that:

26 (1) Application for organization coverage
27 is made not later than 31 days following
28 that involuntary termination; and

29 (2) The individual is not eligible for a
30 conversion plan at a cost equal to or less
31 than the organization premium.

32 Coverage in the organization shall be effective
33 from the date on which the prior coverage was
34 terminated.

35 C. If an insured has paid out \$3,500 for
36 uncovered medical expenses, exclusive of the de-
37 ductible, during the 90-day waiting period, then
38 the remainder of the waiting period will be
39 waived for that insured.

1 5. Nonduplication of benefits. Benefits other-
2 wise payable under organization coverage shall be re-
3 duced by all amounts paid or payable through any oth-
4 er health insurance or insurance arrangement and by
5 all hospital and medical expense benefits paid or
6 payable under any workers' compensation coverage, au-
7 tomobile medical payment or liability insurance,
8 whether provided on the basis of fault or nonfault,
9 and by any hospital or medical benefits paid or pay-
10 able under or provided pursuant to any state or fed-

12 The insurer or the organization shall have a cause of
13 action against an eligible person for the recovery of
14 the amount of benefits paid which are not for covered
15 expenses. Benefits due from the organization may be
16 reduced or refused as a setoff against any amount re-
17 coverable under this subsection.

18 §6059. Premiums

19 1. Reasonableness. Premiums charged for cover-
20 ages issued by the organization may not be unreason-
21 able in relation to the benefits provided, the risk
22 experience and the reasonable expenses of providing
23 the coverage.

24 2. Separate schedules. Separate schedules of
25 premium rates based on age, sex and geographical lo-
26 cation may apply for individual risks. Rates and
27 rate schedules may be adjusted for appropriate risk
28 factors, such as age and area variation in claim
29 cost, and shall take into consideration appropriate
30 risk factors in accordance with established actuarial
31 and underwriting practices.

32 3. Standard risk rate. The board shall deter-
33 mine the standard risk rate by calculating the aver-
34 age individual standard rate charged by the 5 largest
35 insurers offering coverages in the State comparable
36 to the organization coverage. In the event 5 insurers
37 do not offer comparable coverage, the standard risk
38 rate shall be established using reasonable actuarial
39 techniques and shall reflect anticipated experience
40 and expenses for the coverage. In no event may orga-
41 nization rates exceed 150% of rates applicable to the
42 standard risk rate.

1 4. Premium subsidy. The board shall make avail-
2 able a plan to subsidize premiums for those individu-
3 als who have been denied health insurance because of
4 a health condition and who meet income eligibility
5 requirements set by the board. The subsidy plan to be
6 paid from the General Fund shall not exceed \$50,000
7 in costs during the first 2 years of operation.

8 No subsidy may be given to a person if the premium
9 amount, after deducting the subsidy, is less than the
10 premium of any comparable individual health insurance
11 policy currently available to that person in the
12 State.

13 The board shall relate the experience of the subsidy
14 plan to the Legislature in the annual report and
15 shall make recommendations regarding the subsidy
16 plan.

17 \$6060. Duty of health insurance agents and brokers
18 or insurers

19 1. Written notice. Any agent or broker licensed
20 to sell health insurance pursuant to chapter 17 shall
21 furnish written notification of the organization to
22 any individual:

23 A. Who has sought health insurance through the
24 agent; and

25 B. Who is not eligible for adequate health in-
26 surance other than through the organization.

27 Delivery to the individual of the written explanation
28 furnished by the board pursuant to section 6053 shall
29 satisfy this requirement. When coverage is sought
30 other than through an agent or broker, the insurer
31 shall provide the certification required by this sec-
32 tion.

33 2. Rules; penalties. Subject to the applicable
34 requirements and procedures of the Maine Administra-
35 tive Procedure Act, Title 5, chapter 375, subchapter
36 II, the superintendent shall adopt rules regarding
37 the notification process and penalties for violations
38 of this section.

1 §6061. Sunset provision

2 Unless continued or modified by law, the organi-
3 zation shall cease enrollments and renewals of par-
4 ticipants no later than June 30, 1991, and shall be
5 subject to review by the joint standing committees of
6 the Legislature having jurisdiction over audit and
7 program review and banking and insurance.

8 If either or both of the joint standing commit-
9 tees consider continuing the organization, the com-
10 mittee or committees shall consider methods of fund-
11 ing the reserve fund other than by an assessment on
12 hospitals. This consideration shall include funding
13 the reserve fund from the General Fund of the State.

16 This new draft requires an appropriation and a
17 deappropriation from General Assistance of \$200,000
18 and \$295,000, respectively. This represents a net
19 gain to the General Fund of \$159,070 in fiscal year
20 1987-88 and \$200,670 in fiscal year 1988-89.

21 STATEMENT OF FACT

22 This new draft establishes the Maine High-Risk
23 Insurance Organization which will make health insur-
24 ance available for individuals who are unable to ob-
25 tain adequate health insurance because of existing
26 health conditions. Those persons enrolling in the
27 plan during the first 6 months of the plan's opera-
28 tion would not be subject to any waiting period for
29 any preexisting condition. After that time, the pre-
30 existing condition waiting period would be 90 days.
31 An insured who pays out \$3,500 for uncovered medical
32 expenses during the waiting period would also be eli-
33 gible to have the remainder of the waiting period
34 waived.

1 Losses from the plan would be funded by an as-
2 essment on hospital revenues. The amount would be
3 adjusted annually by the board of directors of the
4 organization.

5 Additionally, the new draft provides for a board
6 of directors, appointed by the Governor, to select an
7 administering insurer, establish a plan of operation,
8 establish a subsidy program and set premium rates and
9 schedules. The new draft also provides guidelines
10 for benefits, deductibles, copayments, maximum out-
11 of-pocket expenses, premium rates and eligibility.

12 Sections 3 and 4 provide that the Health Care Fi-
13 nance Commission shall define as charitable care all
14 hospital services to individuals who would meet the
15 financial eligibility guidelines of the medically
16 needy program and that the costs may not be charged
17 to either the individual or the individual's municipi-
18 pality.

19 Section 5 establishes a Special Select Commission
20 on Access to Health Care to investigate and recommend
21 ways to assure access to adequate health care for all
22 citizens.

23 This new draft adds the following provisions to
24 the original bill:

25 1. A requirement that there be no more than 300
26 people enrolled in the plan;

27 2. A requirement that the annual assessments be
28 no more than .0015 of hospital revenues;

29 3. A requirement that the Health Care Finance
30 Commission "pass through" the assessment;

31 4. A requirement that the High-Risk Insurance
32 Organization present a yearly budget, including
33 estimated losses and hospital assessments to the
34 Joint Standing Committee on Appropriations and
35 Financial Affairs and the Joint Standing Commit-
36 tee on Banking and Insurance;

1 5. A requirement that the board of the High-Risk
2 Insurance Commission include a representative
3 from a hospital;

4 6. A requirement that hospitals use Federal
5 Hill-Burton program guidelines for charity care;
6 and

7 7. A 3-year sunset review with an explicit re-
8 view of the funding mechanism.

9 Subject to federal approval, a portion of the
10 costs of the Department of Human Services may be re-
11 imburseable by federal expenditure funds. The
12 Legislature's funding would pay the costs of the spe-
13 cial commission members per diem and expenses. The
14 Department of Human Services funding allows for a
15 contract to staff the commission. The \$50,000 for
16 the High Risk Insurance Organization would subsidize
17 premium charged to purchasers of insurance policies
18 to be developed. These premium fees would be dedi-
19 cated revenue of the organization and be used to pay
20 insurance providers. The organization will also be
21 able to assess hospitals up to \$1,500,000, which will
22 be passed on to all payers, to cover any insurance
23 losses that may occur. The exact amount of premiums
24 and assessments to be collected cannot be determined
25 until the program is operational. The
26 deappropriation in the general assistance program is
27 possible because:

28 1. Municipalities that are currently paying for
29 indigent hospital care through general assistance
30 would be relieved of that responsibility; and

31 2. Clients that purchase the insurance policy to
32 be developed would not have to apply for general as-
33 sistance to cover their hospital expenses.
