

# 114th MAINE LEGISLATURE

# **SECOND REGULAR SESSION - 1990**

#### Legislative Document

No. 2133

S.P. 825

In Senate, January 5, 1990

Approved for introduction by a majority of the Legislative Council pursuant to Joint Rule 26.

Reference to the Committee on Energy and Natural Resources suggested and ordered printed.

L. O'Bren

JOY J. O'BRIEN Secretary of the Senate

Presented by Senator BOST of Penobscot.

Cosponsored by Representative DAGGETT of Augusta and Representative COLES of Harpswell.

### STATE OF MAINE

IN THE YEAR OF OUR LORD NINETEEN HUNDRED AND NINETY

An Act to Promote Markets for Recycled Newspapers.

	38 MRSA §2141 is enacted to read:
<u>§2141</u>	. Recycled content of newsprint
	1. Definitions. As used in this section, unless the
	ext otherwise indicates, the following terms have the
<u>follo</u>	wing meanings.
	A. "Consumer of newsprint" means a person who uses
	newsprint in a commercial printing operation or in a
	commercial publishing operation.
	B. "Deink" or "deinking old newspapers" means a process
	where newspaper is mixed with water, the paper fibers are
	separated to form a paper pulp, and the pulp is cleaned to
	<u>remove contaminants.</u>
	C. "Newsprint" means uncoated paper, whether
	supercalendered or machine finished, of the type generally
	used for, but is not limited to, the publication of
	newspapers, commercial advertising inserts, directories, or
	commercial advertising mailers, which is made primarily from
	mechanical woodpulps combined with some chemical woodpulp.
	"Newsprint" includes paper made from old newspapers which
	have been deinked, using the recycled pulp in lieu of virgin
	pulp. "Newsprint" includes all grades of paper sold as
	neuroprint supercolondered uncosted groundwood or
	newsprint, supercalendered, uncoated groundwood or
	newsprint, supercalendered, uncoated groundwood or machine-finished, uncoated groundwood.
	machine-finished, uncoated groundwood.
	machine-finished, uncoated groundwood. D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and
	machine-finished, uncoated groundwood. D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse in making new newsprint, and that
	machine-finished, uncoated groundwood. D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse in making new newsprint, and that meets quality standards for use as a raw material in the
	machine-finished, uncoated groundwood. D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse in making new newsprint, and that
	machine-finished, uncoated groundwood. D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse in making new newsprint, and that meets quality standards for use as a raw material in the manufacture of a new paper product.
	<ul> <li>machine-finished, uncoated groundwood.</li> <li>D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse in making new newsprint, and that meets quality standards for use as a raw material in the manufacture of a new paper product.</li> <li>E. "Post-consumer waste paper" means a finished material</li> </ul>
	<ul> <li>machine-finished, uncoated groundwood.</li> <li>D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse in making new newsprint, and that meets quality standards for use as a raw material in the manufacture of a new paper product.</li> <li>E. "Post-consumer waste paper" means a finished material that would normally be disposed of as a solid waste, having</li> </ul>
	<ul> <li>machine-finished, uncoated groundwood.</li> <li>D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse in making new newsprint, and that meets quality standards for use as a raw material in the manufacture of a new paper product.</li> <li>E. "Post-consumer waste paper" means a finished material that would normally be disposed of as a solid waste, having completed its life cycle as a consumer item, including, but</li> </ul>
	<ul> <li>machine-finished, uncoated groundwood.</li> <li>D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse in making new newsprint, and that meets quality standards for use as a raw material in the manufacture of a new paper product.</li> <li>E. "Post-consumer waste paper" means a finished material that would normally be disposed of as a solid waste, having completed its life cycle as a consumer item, including, but not limited to, printing plant waste paper.</li> </ul>
	<ul> <li>machine-finished, uncoated groundwood.</li> <li>D. "Old newspaper" or "recovered newspaper" means any newsprint that is separated from other types of solid waste or collected separately from other types of solid waste and made available for reuse in making new newsprint, and that meets quality standards for use as a raw material in the manufacture of a new paper product.</li> <li>E. "Post-consumer waste paper" means a finished material that would normally be disposed of as a solid waste, having completed its life cycle as a consumer item, including, but</li> </ul>

## Page 1-LR3038(1)

	2. Recycled-content newsprint program. Every consumer of
2	<u>newsprint in the State shall use the following percentage of newsprint with recycled content:</u>
4	
б	A. For the year ending December 31, 1993, 20% of the amount of newsprint used in 1992;
8	B. For the year ending December 31, 1994, 30% of the amount of newsprint used in 1993;
10	C. For the year ending December 31, 1995, 40% of the amount
1.2	of newsprint used in 1994;
14	D. For the year ending December 31, 1996, 60% of the amount of newsprint used in 1995;
16	
1.8	E. For the year ending December 31, 1997, 80% of the amount of newsprint used in 1996; and
20	F. For any year thereafter, 90% of the amount of newsprint used in the previous year.
22	3. Certification of use. Consumers of newsprint shall make
24	certification to the office as follows.
26	A. Each consumer of newsprint within the State shall, on or before March 1st of each year, certify to the office the
28	amount of newsprint with recycled content used during the preceding calendar year.
30	
32	B. A consumer of newsprint who submits recycled-content newsprint usage certification pursuant to paragraph A, may be subject to an audit to ensure that the recycled-content
34	newsprint was used.
36	C. Each person who supplies a consumer of newsprint with
38	newsprint shall certify the amounts of recycled-content newsprint contained in each shipment to each consumer of
40	<u>newsprint. If a shipment contains no recycled-content</u> newsprint, the supplier shall so certify.
42	D. If a consumer of newsprint is unable to obtain sufficient amounts of recycled-content newsprint within any
44	reporting period because recycled-content newsprint was not
46	available at a comparable price to that for virgin material, or was not available within a reasonable period of time, the
48	<u>consumer of newsprint shall so certify to the office and provide the office with the specific reason for failing to</u>
50	use recycled-content newsprint. In order to make that certification in good faith, the newsprint consumer must
52	have contacted, for the purpose of obtaining recycled-content newsprint, every producer of

Υ.

•

.

	<u>recycled-content newsprint that offered to sell</u>
2	recycled-content newsprint to the consumer of newsprint
	within the last 18 months. The name, the corporate name, if
4	any, and the address and telephone number of each person
	contacted must accompany each filing with the office.
6	
	E. For the purposes of implementing and enforcing this
8	section, the office shall:
1.0	(1) Develop and maintain a list which identifies every
	consumer of newsprint, as defined in this section, and
12	<u>every person who supplies a consumer of newsprint with</u>
	newsprint, in the State. The office may use
1.4	<u>information from local business permits and trade</u>
	<u>publications or any other relevant information to</u>
16	develop the list; and
18	(2) Conduct a survey of the paper industry to assess
	the availability of, quality of, and market for all
20	recycled-content papers, including coated groundwood
	papers and other papers which are not newsprint. The
22	<u>office shall report the findings of its survey to the</u>
	Legislature on or before March 1, 1994.
24	
	<ol><li>False certification. If any person provides a consumer</li></ol>
26	of newsprint or the office with a false or misleading certificate
	pursuant to subsection 3, the office, within 30 days of making
28	<u>this determination, shall refer the false or misleading</u>
	<u>certificate to the Attorney General for prosecution for fraud.</u>
30	
	5. Proprietary information. Specific information on
32	newsprint prices included as part of a certificate submitted to
	<u>the office by newsprint consumers or suppliers of newsprint is</u>
34	<u>proprietary information and may not be made available to the</u>
	<u>general public.</u>
36	
	6. Penalties. Any person who violates this section commits
38	a civil violation for which a forfeiture not to exceed \$1,000 may
	be adjudged.
40	
42	STATEMENT OF FACT
44	The purpose of the bill is to ensure adequate markets for
	Maine municipalities seeking to recycle newspapers, which are a
46	major proportion of the municipal waste stream, both in terms of
4.0	volume and weight. Since municipalities usually pay for trash
48	disposal by weight, recycling newspapers reduces municipal waste
50	disposal costs. Also, newspapers are easily separated at the
50	household level and are easily processed, so they are often a
<b>F</b> 0	first step for local recycling programs.
52	

The bill promotes newspaper recycling by requiring that Maine newspapers be printed on newsprint which has a specified percentage of post-consumer recycled content. This requirement is phased in over time. This bill will create a demand for recycled newsprint, which will help ensure a long-term market for municipal newspaper recycling programs. This bill is fully consistent with, and will help to implement, the new comprehensive recycling law which sets a 25% state recycling goal by 1992 and a 50% goal by 1994.
