## STATEMENT OF FACT

10 This bill is intended to promote the efficiency of the courts and to reduce the need for additional full-time judges of 12 the Superior Court and the District Court by employing magistrates. Magistrates would be attorneys who agree to serve 14 for not more than one day each week within their own counties, hearing uncontested matters and, by agreement, nonjury contested 16 matters. Judicial time and resources would not be expended on nonadjudicatory matters that could readily be heard by part-time 18 magistrates.

20 Because magistrates would be independent contractors, they would not be entitled to medical insurance coverage, retirement 22 benefits or other fringe benefits. Also, magistrates would be used only where needed and to the extent needed. By applying 24 resources to those courts where resources are needed and by reducing the need for additional full-time judges, a more 26 efficient and less expensive court system should result.

28

Magistrates would usually preside in the Superior Courts and the District Courts on days when the courtrooms are not in use.
