STATE OF MAINE
HOUSE OF REPRESENTATIVES
115TH LEGISLATURE
FIRST REGULAR SESSION

COMMITTEE AMENDMENT "A" to H.P. 722, L.D. 1026, Bill, "An Act to Alter the Mandate of the Maine Low-level Radioactive Waste Authority to Include Reduction of Low-level Radioactive Waste"

Amend the bill by striking out everything after the enacting clause and before the statement of fact and inserting in its place the following:

'38 MRSA §1530 is enacted to read:

§1530. Volume and curie content reduction

The authority shall investigate options for reducing the volume and curie content of low-level radioactive waste and may recommend to generators any volume or curie content reduction options that are economically and technologically feasible and that are permitted by all applicable federal and state laws.'

STATEMENT OF FACT

The amendment replaces the bill. The amendment requires the Maine Low-level Radioactive Waste Authority to investigate options for reducing the volume and curie content of low-level radioactive waste and permits the authority to make recommendations to low-level radioactive waste generators regarding options that are economically and technologically feasible and that are permitted by federal and state law.

Reported by the Committee on Energy and Natural Resources
Reproduced and distributed under the direction of the Clerk of the House
(4/16/91) (Filing No. H-128)
