Presently, the Department of Marine Resources allows the relaying of shellfish from closed or restricted areas to approved or conditionally approved areas for the purposes of self-purification. In order to prevent the illegal harvest of shellfish from the relay area, the department has utilized the commissioner's powers under the Maine Revised Statutes, Title 12, section 6172. This bill eliminates the need for the time-consuming steps required under Title 12, section 6172, by allowing the harvesting of shellfish from closed areas designated for the purposes of relaying only upon written approval by the Commissioner of Marine Resources.
