22		firm, corporation, partnership or association actively engaged in
	,	business that, on at least 50% of its working days during the
24		preceding calendar year quarter, employed no more than 24
21		eligible employees, the majority of whom are employed within the
26		State. In determining the number of eligible employees,
20		companies that are affiliated companies, or that are eligible to
20		
28		file a combined tax return for purposes of state taxation, are
		considered one employer. Except as otherwise provided, the
30	11	provisions of this chapter that apply to a small employer
		continue to apply until the plan anniversary following the date
32		the employer no longer meets the requirements of this definition.
34		<u>§6402. Basic care benefits</u>

36		Insurers may issue basic care medical insurance meeting the
		<u>criteria of this chapter. For purposes of this chapter, basic</u>

This bill permits insurers and nonprofit health plans, like Blue Cross and Blue Shield, to develop a less costly managed care health plan specifically for the small employer market.

> Page 5-LR3613(1) L.D.2179

The plan permits a number of mandated benefits to be omitted from coverage. The plan is also designed to provide coverage for preventive care services to encourage covered persons to seek treatment at appropriate times before more costly acute care needs arise.

The bill requires insurers to renew basic care policies in most cases. Additionally, the bill requires significant disclosure that the plan does not provide coverage for certain providers and types of illness and that managed care features are included in the plan.
