116th MAINE LEGISLATURE

FIRST REGULAR SESSION-1993

Legislative Document

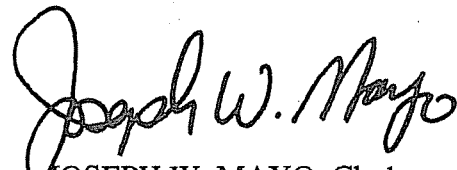

No. 1491

H.P. 1104

House of Representatives, May 11, 1993

An Act Concerning Preferred Provider Arrangements.

Reference to the Committee on Banking and Insurance suggested and ordered printed.

JOSEPH W. MAYO, Clerk

Presented by Representative DAGGETT of Augusta.

2 Be it enacted by the People of the State of Maine as follows:

4 Sec. 1. 24-A MRSA c. 32, as amended, is repealed.

6 Sec. 2. 24-A MRSA c. 32-A is enacted to read:

8 CHAPTER 32-A

10 PREFERRED PROVIDER ARRANGEMENT ACT OF 1993

12 §2680. Short title

14 This chapter is known and may be cited as the "Preferred
Provider Arrangement Act of 1993."

16 §2681. Definitions

18 As used in this chapter, unless the context otherwise
indicates, the following terms have the following meanings.

20 1. Administrator. "Administrator" means any person,
22 partnership or corporation, other than an insurer or nonprofit
health service organization, that arranges, contracts with or
24 administers contracts with a provider by which beneficiaries are
provided an incentive to use the services of that provider.

26 2. Beneficiary. "Beneficiary" means an individual entitled
28 to reimbursement for expenses of health care services under a
program in which the beneficiary has an incentive to use the
30 services of a provider who has entered into an agreement or
arrangement with an administrator.

32 3. Health care services. "Health care services" means
34 health care services or products rendered or sold by a provider
within the scope of the provider's legal authorization.

36 4. Insured. "Insured" means an individual entitled to
38 reimbursement for expenses of health care services under a policy
issued or administered by an insurer.

40 5. Insurer. "Insurer" means an insurance company
42 authorized in this State to issue policies that reimburse for
expenses of health care services.

44 6. Preferred provider. "Preferred provider" means a
46 provider who enters into a preferred provider arrangement with an
administrator or insurer.

2 7. Preferred provider arrangement. "Preferred provider
arrangement" means a contract, agreement or arrangement
4 consistent with section 2683.

6 8. Provider. "Provider" means an individual or entity duly
licensed or legally authorized to provide health care services.

8 9. Superintendent. "Superintendent" means the
10 Superintendent of Insurance.

12 **§2682. Selective contracting authorized**

14 1. Contracting authorized. This Act authorizes selective
contracting by insurers or administrators with a limited number
16 of preferred providers to provide health care services to
insureds of the insurer or beneficiaries of the administrator in
18 a cost-effective way.

20 2. Contracting not discrimination. Insurers or
administrators may enter into contracts with a limited number of
22 preferred providers. In selecting preferred providers, insurers
or administrators may consider, among other factors, price
24 differences between or among providers, geographic accessibility,
specialization and projected utilization by beneficiaries and
26 insureds. Selective contracting does not constitute unreasonable
discrimination against or among providers.

28 **§2683. Policies, agreements or arrangements with incentives or
limits on reimbursement authorized**

30 1. Arrangements with preferred providers permitted.
32 Subject to this section and to the approval of the
superintendent, an insurer or administrator may enter into
34 agreements with certain providers of the insurer's or
administrator's choice relating to health care services that may
36 be rendered to insureds of the insurer or beneficiaries of the
administrator, including agreements relating to the amounts to be
38 charged by the provider to the insured or beneficiary for
services rendered and amounts to be paid by the insurer or
40 administrator.

42 A. An administrator may market or make preferred provider
arrangements available to licensed health maintenance
44 organizations, insurance companies, health service
corporations, fraternal benefit societies, self-insuring
46 employers or health and welfare trust funds and their
subscribers. In performing these functions, the
48 administrator must provide administrative services only and
may not accept underwriting risk in the form of a premium or
50 capitation payment for services rendered.

2 B. An insurer may issue policies in this State or an
4 administrator may administer programs in this State that
6 include incentives for the insured or beneficiary to use the
8 services of a provider who has entered into an agreement
10 with the insurer or administrator pursuant to this
 subsection. When such a program or policy is offered to an
 employee group, employees have the annual option of
 participating in any other health insurance program or
 health care plan sponsored by their employer.

12 2. Terms restricting access or availability prohibited.
14 Policies, agreements or arrangements issued under this Act may
16 not contain terms or conditions that will operate to restrict
18 unreasonably the access and availability of health care
20 services. The superintendent shall adopt rules setting forth
22 criteria for determining when a term or condition operates to
24 restrict unreasonably access and availability of health care
26 services. The rules must include criteria for evaluating the
28 reasonableness of the distance to be travelled by insureds or
30 beneficiaries for particular services and may prohibit the
 insurer or administrator from applying a benefit level
 differential to individual insureds or beneficiaries who must
 travel an unreasonable distance to obtain the service. The
 criteria must also include the effect of the arrangement on
 noninsureds and nonbeneficiaries in the communities affected by
 the arrangement, including, but not limited to, the ability of
 nonpreferred providers to continue to provide health care
 services if services were provided by a preferred provider.

32 3. Presumption of restricted access and availability. It
34 is presumed that the proposed preferred provider arrangement
36 operates to restrict unreasonably access and availability of
38 health care services when the type of care contemplated is
40 addressed by preexisting mandated benefit legislation. The
42 superintendent shall adopt rules setting forth criteria for
44 determining when a term or condition operates to restrict
46 unreasonably access and availability of health care services.
48 The rules must include criteria for evaluating the reasonableness
 of the distance to be traveled by insureds or beneficiaries for
 particular services and may prohibit the insurer or administrator
 from applying a benefit level differential to individual insureds
 or beneficiaries who must travel an unreasonable distance to
 obtain the service. The criteria must also include the effect of
 the arrangement on noninsureds and nonbeneficiaries in the
 community affected by the arrangement, including, but not limited
 to, the ability of nonpreferred providers to continue to provide
 health care services.

2 4. Length of contract; contracting process. Contracts for
3 preferred providers arrangements may not exceed a term of 3
4 years. A preferred provider arrangement for all insureds or
5 beneficiaries of an insurer must be awarded on the basis of an
6 open bidding process after invitation to all providers of that
7 service in the State. Providers must be given an adequate
8 opportunity to respond to the open bidding process, but in any
9 event, they must have at least 30 calendar days to respond. Each
10 preferred provider arrangement affecting all insureds and
11 beneficiaries must be bid and contracted for as separate
12 services. Each service on the list set forth in section 2685
13 constitutes a separate service.

14 **§2684. Requirements applicable to administrators**

15 1. Registration. All administrators of a preferred
16 provider program subject to this Act shall register with the
17 Bureau of Insurance and pay an annual registration fee of \$2500.
18 The Bureau of Insurance shall by rule establish criteria for the
19 registration, including minimum solvency requirements.

20
21 The Bureau of Insurance shall compile and maintain a current
22 listing of administrators and insurers offering agreements
23 authorized under this Act.

24
25 2. Fiduciary accounts. Each administrator who handles
26 money for purposes of payment for provider services subject to
27 this Act shall establish and maintain a fiduciary account,
28 separate and apart from all other accounts, for the receipt and
29 disbursement of funds for program reimbursement covered under
30 this Act. The administrator shall post or cause to be posted a
31 surety bond in a penal sum to be determined by the standards of a
32 rule to be adopted by the superintendent.

33
34 A. If a surety bond of indemnity is posted, it must be
35 drawn in favor of the Treasurer of State and held by the
36 superintendent for the benefit of parties in interest.

37
38 B. In the event of misappropriation of funds or other
39 violation of a fiduciary obligation, the right of any
40 administrator to enter agreements or arrangements with
41 incentives or limits on reimbursement consistent with this
42 Act may be revoked or suspended by the superintendent.

43
44 3. Disclosures. Unless the following information is
45 provided by another entity, each administrator shall provide to
46 each beneficiary of any program subject to this Act a document
47 that:
48

2 A. Sets forth those providers with which agreements or
4 arrangements have been made to provide health care services
6 to the beneficiary, a source for the beneficiary to contact
8 regarding changes in the providers and a clear description
10 of any incentives for the beneficiary to use the providers;

12 B. Discloses the extent of coverage as well as any
14 limitations or exclusions of health care services under the
16 program;

18 C. Clearly sets out the circumstances under which
20 reimbursement will be made to a beneficiary unable to use
22 the services of a preferred provider;

24 D. Sets out a description of a process for addressing a
26 beneficiary complaint under the program;

28 E. Discloses deductible and coinsurance amounts charged to
30 any person receiving health care services from a preferred
32 provider; and

34 F. Discloses the rate of payment when health care services
36 are provided by a nonpreferred provider.

38 4. Multiple programs. An administrator who operates more
40 than one preferred provider program shall establish and maintain
42 a separate fiduciary account for each such program.

44 5. Penalties. The Superior Court shall assess a civil
46 penalty in an amount not to exceed \$3,000 for each violation,
48 payable to the Bureau of Insurance, to be applied toward the
50 administration of this Title, against any corporation, entity or
an individual violating any provision of this Act, including
failure to register or pay the required fee, misappropriation of
funds or other violation of fiduciary responsibility. Any
person, whether a director, office manager, employee,
representative of a corporation or entity or other person, may
also be punished by imprisonment for less than one year for
knowingly participating in or authorizing the misappropriation of
funds or another violation of fiduciary responsibility.

6. Rights not impaired. Nothing in this Act affects any
rights or interests possessed by any person other than the Bureau
of Insurance or an administrator.

§2685. Requirements applicable to insurers

1. Approval of arrangements. An insurer or administrator
that proposes to offer a preferred provider arrangement
authorized by this Act shall file with the superintendent

2 proposed agreements, rates and other materials relevant to the
4 proposed arrangement, in the time period and the manner
6 established by rule by the superintendent. The insurer or
8 administrator proposing the arrangement shall file with the
10 superintendent a list of practitioners and agencies who are
12 providers of the type of care contemplated under the
14 arrangement. An arrangement may not be offered until the
16 superintendent has approved the arrangement. The superintendent
18 shall include in the rules the number of days within which the
20 superintendent must approve or disapprove a proposed arrangement.

22 A. The superintendent shall disapprove any arrangement if
24 it contains any unjust, unfair or inequitable provisions or
26 fails to meet the standards set forth in section 2683 or
28 those set forth in rules adopted pursuant to section 2683.
30 The superintendent shall also adopt rules setting forth the
32 criteria to be used in determining what constitutes an
34 unjust, unfair or inequitable provision.

36 B. The superintendent shall disapprove any arrangement if
38 it contains health care provider credential requirements
40 that exceed the existing credential or licensing
42 requirements under state law or regulation.

44 C. The superintendent shall disapprove any arrangement if
46 it contains in-service training requirements for health care
48 providers in excess of existing requirements adopted by a
50 governmental agency or standards adopted by the appropriate
52 professional organization.

54 D. The superintendent shall disapprove any arrangement if
56 it contains provisions that will cause existing health care
58 providers to suffer substantial revenue losses resulting in
60 reduction of services or if they are otherwise required,
62 because of the effect of the arrangement, to reduce services
64 available to nonbeneficiary clients or patients. The
66 superintendent shall adopt rules setting forth criteria to
68 be used in determining when existing health care providers
70 will suffer substantial revenue losses or reduction of
72 services, including, but not limited to, consideration of
74 the following:

76 (1) The effect the reduction of services will have on
78 the level of benefits made available to residents of
80 this State by this Act to be provided by a wide variety
82 of health care providers pursuant to Title 24, chapter
84 19;

2 (2) The negative effect the reduction of services will
3 have on the orderly, efficient and cost-effective
4 provision of health care services in the State; and

6 (3) The aggregate social costs attending the reduction
7 of services in terms of mortality, violent crime and
8 untreated substance abuse.

10 E. The superintendent shall disapprove any arrangement if
11 it otherwise exceeds any existing regulatory requirements.

12 2. Notice. Within 5 days of filing a proposed
13 arrangement, the administrator or insurer proposing the
14 arrangement shall:

16 A. Mail notice of the proposal to all persons who have
17 requested notice of preferred provider arrangement proposals
18 in advance from the superintendent;

20 B. Publish notice of the preferred provider arrangement in
21 the legal advertisement section of at least one newspaper
22 published in each county of the State at least once a week
23 for 8 consecutive weeks;

24 C. Mail notice of the preferred provider arrangement to all
25 persons listed as providers of that type of care in the
26 filing required under subsection 1;

28 D. Publish notice of the preferred provider arrangement in
29 an appropriate professional journal for at least 2 months;
30 and

32 E. Ensure that the notices invite written comments from
33 interested persons and inform interested persons of their
34 right to request a public hearing.

36 3. Public hearing. The superintendent may hold a public
37 hearing on approval of a preferred provider arrangement and shall
38 hold a public hearing if an interested person requests a public
39 hearing and the request meets the criteria set forth in this
40 section and in the rules adopted under this section. The
41 superintendent shall hold a public hearing upon request of an
42 interest person when:

44 A. The interested person makes a written request to the
45 superintendent:

48 (1) Within the time period established by rule by the
49 superintendent;

44
46
48

(2) Stating briefly the respects in which that person is interested or affected; and

(3) Stating the grounds on which that person relies and the relief to be demanded at the hearing; and

B. The superintendent finds that:

(1) The request is timely and made in good faith; and

(2) The interested person would be aggrieved if the stated grounds were established and the grounds otherwise justify the hearing.

The superintendent shall adopt rules to implement the hearing requirement, including rules setting forth the time period within which a public hearing will be held on the superintendent's initiative and the time period within which an interested person must file a request for a public hearing. If the superintendent finds that a public hearing is justified at the request of an interested person, the public hearing must be held within 30 days after the filing of the request by an interested person, unless the hearing is postponed by consent of the interested person, the superintendent and the insurer or administrator filing the arrangement. The hearing must be held in accordance with the provisions of the Maine Administrative Procedure Act, including the provision permitting intervention of interested persons.

4. Disclosures. If an insurer offers an arrangement with incentives or limits on reimbursement consistent with this Act as part of a group health insurance contract or policy, the forms must disclose to insureds:

A. Those providers with which agreements or arrangements have been made to provide health care services to the insureds and a source for the insured to contact regarding changes in the list of providers;

B. The extent of coverage as well as any limitations or exclusions of health care services under the policy or contract;

C. The circumstances under which reimbursement will be made to an insured unable to use the services of a preferred provider;

D. A description of the process for addressing a complaint under the policy or contract;

2 E. Deductible and coinsurance amounts charged to any person
3 receiving health care services from a preferred provider; and

4 F. The rate of payment when health care services are
5 provided by a nonpreferred provider.

6
7 **§2686. Risk sharing**

8
9 Preferred provider arrangements may embody risk sharing by
10 providers.

11
12 **§2687. Alternative health care benefits**

13
14 An insurer or administrator who makes a preferred provider
15 arrangement available shall provide for payment of covered health
16 care services rendered by providers who are not preferred
17 providers. The benefit level differential for all services
18 rendered is limited to a maximum of 20% of the allowable charge.
19 For the purposes of this section, the term "allowable charge"
20 means the amount that would be payable for services under the
21 preferred provider arrangement prior to the application of any
22 deductible and coinsurance.

23
24 **§2688. Utilization review**

25
26 On or before April 1st of each year, an administrator or
27 insurer who issues or administers a program, policy or contract
28 in this State that includes incentives for the insured or
29 beneficiary to use the services of a provider who has entered
30 into an agreement with the insurer or administrator, pursuant to
31 section 2683, subsection 2, shall file a report of its activities
32 for the preceding year with the superintendent. The report must
33 be in the form prescribed by the superintendent and at a minimum
34 must contain the following:

35 1. Identity of providers. Name, address and scope of
36 license of each preferred provider; and

37
38 2. Utilization experience. Utilization experience for the
39 following categories: hospitalization, ambulatory surgical or
40 other outpatient services and professional services. Utilization
41 of professional services must be listed by specialty.

42
43
44 **§2689. Annual report**

45
46 In addition to the utilization reports required by section
47 2688, each insurer or administrator shall file a report with the
48 joint standing committee of the Legislature having jurisdiction
49 over insurance matters by January 1st of each year, setting forth
50 its activities for the past year with respect to preferred

2 provider arrangements, its plans to develop arrangements in the
4 future, the effects of the preferred provider arrangements on
6 insurance costs and services and insured and employer
8 satisfaction with the arrangement. The superintendent shall also
10 file a report with the joint standing committee of the
12 Legislature having jurisdiction over insurance matters by January
14 1st of each year on the activities of insurers with respect to
16 preferred provider arrangements, any complaints received by the
18 Bureau of Insurance concerning these arrangements and the effects
20 of preferred provider arrangements.

22 **§2690. Utilization review data**

24 **1. Report required.** On or before April 1st of each year,
26 an administrator or insurer who issues or administers a program,
28 policy or contract in this State that contains a provision by
30 which, in nonemergency cases, the insured is required to be
32 prospectively evaluated through a prehospital admission
34 certification, preinpatient service eligibility program or any
36 similar preutilization review or screening procedure prior to the
38 delivery of nonemergency contemplated hospitalization, inpatient
40 or outpatient health care or medical services which are
42 prescribed in ordered by a duly licensed physician shall file a
44 report on the results of the evaluation for the preceding year
46 with the superintendent. The report must contain the following:

48 **A. The number and type of evaluations performed.**

50 (1) As used in this section, the term "type of
evaluations" means the following preutilization review
categories: presurgical inpatient days, setting of
medical service, such as inpatient or outpatient
services and the number of days of service;

B. The result of the evaluation, such as whether the
medical necessity of the level of service contemplated by
the patient's physician was agreed to or benefits paid for
the service were reduced by the administrator or insurer;

C. The number and result of any appeals by patients or
their physicians as a result of initial review decisions to
reduce benefits for services as determined through
prospective evaluations; and

D. Any complaints filed in a court of competent
jurisdiction and served upon an administrator or insurer
filing under this section stating a course of action against
the administrator or insurer on the basis of damages to
patients alleged to have been proximately caused by a delay,
reduction or denial of medical benefits by the administrator

2 or insurer, as determined through prospective evaluations
3 and the determination of liability or other disposition of
4 the complaint.

5 2. State residents. This section applies only to
6 evaluations, appeals and complaints relating to residents of the
7 State.

8 3. Confidentiality. Information provided pursuant to this
9 section may not identify the names of patients.

10 **§2691. Retroactivity; reapproval required**

11 The requirements contained in this Act are effective
12 retroactively to September 23, 1992. Any preferred provider
13 arrangement approved subsequent to September 23, 1992 pursuant to
14 the provisions of chapter 32 must be reapproved pursuant to the
15 provisions of this Act.

STATEMENT OF FACT

21 This bill repeals the Preferred Provider Arrangement Act of
22 1986 and enacts a replacement act which is intended to address
23 certain issues created by a recent Bureau of Insurance action
24 with respect to preferred providers in the substance abuse
25 field. The bill does not adversely affect current mandated
26 benefits. It addresses the ability of nonpreferred providers to
27 continue to provide health care services if other key services
28 are provided by other preferred providers. It also addresses a
29 number of procedural aspects having to do with notice to
30 providers and provider opportunity to respond. It also requires
31 the filing of lists of possible preferred providers with the
32 Superintendent of Insurance. It increases the filing fee from
33 \$20 to \$2,500 reflecting the great amount of processing work
34 necessary.
35

36 The bill provides that no preferred provider arrangement may
37 be approved by the Superintendent of Insurance when an
38 arrangement requires exceeding existing credentials or licensing
39 statutes or regulations; requires in-service training in excess
40 of statutory or regulatory requirements; has the effect of
41 causing losses of service or revenues to key current providers;
42 or exceeds the requirements of any existing statutory or
43 regulatory provisions having to do with the operation of agencies
44 or the exercise of licensure by individual providers.
45

46 The bill contains a retroactivity clause requiring the
47 superintendent to reopen proceedings in which preferred providers
48

2 had been approved under the Preferred Provider Arrangement Act of 1986.
