116th WAINE LEGISLATURE

SECOND REGULAR SESSION-1994

Legislative Document

No. 1760

H.P. 1305

House of Representatives, January 20, 1994

An Act to Amend the Utility Location Permit Laws.

Approved for introduction by a majority of the Legislative Council pursuant to Joint Rule 26. Reference to the Committee on Utilities suggested and ordered printed.

OSEPH W. MAYO, Clerk

Presented by Representative SAXL of Bangor.

Cosponsored by Representatives: ADAMS of Portland, CLARK of Millinocket, HOLT of Bath,

MORRISON of Bangor, Senator: CLEVELAND of Androscoggin.

Sec. 2. 35-A MRSA §2503, sub-§5, as enacted by PL 1987, c. 141, Pt. A, §6, is amended to read: 5. Permits. The location permit shall specify the approximate location of the facility and the minimum depth of any pipes or conduits below, or the minimum height of any wires or cables above, the earth's surface. The licensing authority may specify in the permit other requirements determined necessary in the best interests of the public safety and use of the right-of-way se-as-net-te-obstruct-use-fer-public-travel. Any person who has been issued a permit shall provide to the licensing authority plans of the facilities as built within 30 days after completion of the installation or laying of the facilities. Sec. 3. 35-A MRSA §2503, sub-§§5-A, 5-B and 6-A are enacted to read: 5-A. Fees. The licensing authority may condition the granting of a permit on an agreement by the applicant to pay an annual fee to the licensing authority. The fee may apply only to facilities installed or relocated after September 1, 1994. The fee imposed on public utilities may not exceed \$5 per linear foot for underground facilities and \$10 per pole or other aboveground support used to carry wires, cables, pipelines or other aboveground facilities. A fee per linear foot may not be charged for aboveground facilities. The following may not be required to pay an annual fee under this subsection:		be at charten by the a copie of the Beate of Manne as follows.
1—A. Associated governmental entity. "Associated governmental entity" means: A. The State, when the licensing authority is the Department of Transportation; B. The municipal government, when the licensing authority is the municipal officers or their designees; and C. The county government, when the licensing authority is the county commissioners. Sec. 2. 35-A MRSA §2503, sub-§5, as enacted by PL 1987, c. 141, Pt. A, §6, is amended to read: 5. Permits. The location permit shall specify the approximate location of the facility and the minimum depth of any pipes or conduits below, or the minimum height of any vires or cables above, the earth's surface. The licensing authority may specify in the permit other requirements determined necessary in the best interests of the public safety and use of the right-of-way second-second-tecobetruct-use-for-public-travel. Any person who has been issued a permit shall provide to the licensing authority plans of the facilities as built within 30 days after completion of the installation or laying of the facilities. Sec. 3. 35-A MRSA §2503, sub-§§5-A, 5-B and 6-A are enacted to read: 5-A. Fees. The licensing authority may condition the granting of a permit on an agreement by the applicant to pay an annual fee to the licensing authority. The fee may apply only to facilities installed or relocated after September 1, 1994. The fee imposed on public utilities may not exceed \$5 per linear foot for underground facilities. A fee per linear foot may not be charged for aboveground facilities. A fee per linear foot may not be required to pay an annual fee under this subsection: A. Utilities or other entities owned and operated by the State or by a municipality. B. Consumer-owned utilities, rural electrification cooperatives, as defined in section 3703, or any	2	Sec 1 35-4 MRSA 82502 sub-81-A is enacted to read.
A. The State, when the licensing authority is the Department of Transportation: B. The municipal qovernment, when the licensing authority is the municipal officers or their designees; and C. The county government, when the licensing authority is the county commissioners. Sec. 2. 35-A MRSA §2503, sub-§5, as enacted by PL 1987, c. 141, Pt. A, §6, is amended to read: 5. Permits. The location permit shall specify the approximate location of the facility and the minimum depth of any pipes or conduits below, or the minimum height of any wires or cables above, the earth's surface. The licensing authority may specify in the permit other requirements determined necessary in the best interests of the public safety and use of the right-of-way se-as-as-te-obstruct wes-fer-public-travel. C. Any public utility that pays real or personal property 2 taxes on facilities subject to the permit to a municipality or county where the facilities are located. 5-B. Indemnification provisions. The licensing authority 6 may require as a condition of the permit that the applicant agree to indemnify the licensing authority and associated governmental 8 entity for any claims against the licensing authority or associated governmental entity arising out of the applicant's 10 negligent use of the public way pursuant to an issued permit. 12 6-A Immunity. Notwithstanding the provisions of Title 14, 14 chapter 741, Title 23, section 3360-A or any other provisions of law, a licensing authority and the associated governmental entity are immune from all liability for any damage to any facilities 16 caused by any negligent act or omission of the licensing authority, associated governmental entity or of the employees, 18 agents or representatives of either the licensing authority or associated governmental entity. The procurement of liability 20 insurance coverage by the licensing authority or the associated 22 governmental entity does not waive this immunity. Sec. 4. 35-A MRSA §2503, sub-§13, ¶C, as enacted by PL 1987, 24 c. 141, Pt. A, §6, is amended to read: 26 In the case of municipalities, the decision of the C. municipal officers or their designees shall be filed with 28 the clerk of the municipality within one week from the date of the decision. Within 2 weeks from the filing, any person 30 aggrieved may appeal from their decision to the county 32 commissioners by filing notice of appeal with a copy of the original petition and adjudication with the clerk of the 34 municipality and with the clerk of the board of county commissioners. 36 (1) Once a person aggrieved files a notice of appeal 38 of a revision decision made by a municipality, the municipal officers may review --- reconsider that 40 decision previously-made-by-them-to-reconsider-the issues-involved or-they-may-aet-as-a-review-board-to 42 evaluate--a--deeision--made--by--their--designees. reconsideration may include review of the issues raised by the appeal, reassessment of the issues previously 44

46

presented to the municipality or review of any actions

taken or decisions made by the municipal officers' designees. The municipal officers may-alter-deeisions

during--the--2-week shall complete a reconsideration within 15 business days of the filing of an appeal with

the county commissioners, unless the person aggrieved

agrees to an extension of the reconsideration period, but--the--person--aggrieved-retains--the--initiative--to pursue-the-appeal-if-not-satisfied-with-the-altered An agreement to an extension of a reconsideration does not impair a person's right to pursue an appeal under this paragraph. The municipal officers shall notify the county commissioners whenever a reconsideration is commenced or an agreement to an extension is reached pursuant to this subparagraph and the appeal is stayed for a period of 15 business days from the date of the filing of the appeal and for the term of any extension agreed to under this subparagraph. Upon termination of the stay, the person aggrieved, if not satisfied with the decision of the municipal officers on reconsideration or if reconsideration is not completed, may pursue person's appeal and may amend the appeal to recognize decision of the municipal officers reconsideration.

county commissioners (2)The shall immediately entertain the appeal and give 2 weeks' notice of the time and place of hearing, which must be held commenced within 30 days from the time the appeal is filed, except that if a reconsideration is commenced pursuant to subparagraph (1), the 30-day period runs from the termination of the stay as provided in subparagraph (1). The hearing may be adjourned from time to time, not exceeding 30 days in all, and the commissioners shall file their decision within 30 45 days from the time the hearing is closed and transmit a copy of it to the applicant, any other parties to the appeal and to the clerk of the municipality, who shall immediately record it.

36

40

34 -

(3) The decision of the county commissioners may be appealed as a final agency action pursuant to Title 5, chapter 375, subchapter VII. For purposes of the tolling of time deadlines for appeal, the date of decision of the county commissioners is the date the notice of the decision is received by the clerk of the municipality.

42

Sec. 5. 35-A MRSA §2503, sub-§§19 and 20, as enacted by PL 1987, c. 141, Pt. A, §6, are amended to read:

46

44

19. Legal effect. Existing facilities and appurtenances maintained and now in use within a public way, together with any facilities and appurtenances installed and maintained in accordance with this section are deemed legal structures and the

party maintaining them is liable for maintaining them only for acts of negligence in the erection or maintenance of them. The failure of the licensing authority, without good cause, to grant or deny a permit for which application is made within 60 90 days of filing with the municipality constitutes the issuance of a location permit. For purposes of this subsection, good cause includes, but is not limited to, unfinished review of complex transmission system plans requiring engineering expertise or site inspection, the utilization of the settlement process established in section 2523 and incomplete good faith negotiations between parties concerning permit conditions.

20. Exclusive method. Compliance with this section by any person is the exclusive method of obtaining the rights and privileges conferred in this section and no person or cooperative may be required, -with -respect -to-the-location -of -its-facilities, to comply with or be subject to any other law, including, but not limited to, Title 30 30-A, chapter 240-A 165 in order to obtain the rights and privileges conferred under this section with regard to the location of facilities in a public way. Nothing in this subsection exempts any person from compliance with any state or local law or rule that is not related to the location of facilities in the public way, including, but not limited to, the provisions of Title 30-A, section 3008 and local ordinances requiring the payment of franchise fees and the execution of a franchise agreement before the use of the public right-of-way for the provision of cable television services.

§2523. Facilities in the public way; application to commission when disagreement

Whenever a licensing authority and public utility seeking to undertake any activity requiring a permit under this chapter can not agree upon the manner of construction or the location of facilities or the payment of fees to the licensing authority, either party may apply to the commission to resolve the dispute. The commission's decision is binding upon the parties. The public utility shall pay costs, other than attorney's fees, except that, if the commission determines that the licensing authority has been unreasonable in its position, the commission may require the licensing authority or associated governmental entity to pay costs, other than attorney's fees. A licensing authority's insistence on the payment of any fee authorized under this chapter may not be found to be unreasonable by the commission. In its discretion, the commission may also resolve any other dispute arising under a written agreement between the public utility and the licensing authority providing for commission review of the dispute.

6

STATEMENT OF FACT

Currently, utilities have free access to public rights-of-way, regardless of whether the service provided by the utility is an essential service or part of a commercial venture. In consequence of recent advances in telecommunications and other technology, new types of utility facilities, such as fiber optic cables, are now being placed in public ways. The nature of these new facilities requires a new regulatory framework to address the increased risks that are associated with these new facilities.

14

10

12

This bill makes the following changes to law.

16

18

24

26

28

- 1. It provides a definition of "associated governmental entity."
- 20 2. It requires persons issued a permit to build facilities in the public way to provide to the licensing authority plans of the facilities as built within 30 days of their construction.
 - 3. It permits licensing authorities to assess annual fees for use of the public way. The fee is capped for underground and aboveground facilities and applies only to facilities installed or relocated after September 1, 1994. There are exemptions from the fee for governmental and consumer-owned entities. An exemption is also provided for public utilities that pay local property taxes on permitted facilities to a municipality or to a county.

32

34

36

44

46

48

30

- 4. It also permits licensing authorities to require as a condition of a permit that the applicant agree to indemnify the licensing authority or associated governmental entity for claims arising out of the applicant's negligent use of the public way.
- 5. It creates immunity for licensing authorities and associated governmental entities from all liability for damage to any facilities in the public way, regardless of when installed, caused by negligent act or omission of the licensing authority or its employees or agents.
 - 6. It clarifies and modifies the authority of municipalities to reconsider permit decisions, extends the deadline for county commissioners to complete a decision on an appeal of a municipal decision and specifies a right of appeal from a decision of the county commissioners.
- 7. It extends the deadline for an approval or denial of a permit application by a licensing authority to 90 days. The bill

permits the licensing authority, for good cause, to take longer than 90 days.

8. It requires the Public Utilities Commission to resolve disputes in which a licensing authority and a public utility applying for a permit can not agree on terms of a permit. This provision also provides that unless the licensing authority is found unreasonable in its position, the utility must pay the costs of the proceeding, other than attorney's fees.
