13 and financial data bases currently administered and maintained by  
14 the Maine Health Care Finance Commission. The Maine Health Care

17 the Maine Health Data Organization becomes operational, as  
18 determined by the board, or December 31, 1996, whichever is  
19 earlier.

20 2. Board of directors. The organization operates under the  
21 supervision of a board of directors, which consists of 17 voting  
22 members.

23 A. The Governor shall appoint 15 board members, subject to  
24 review by the joint standing committee of the Legislature  
25 having jurisdiction over human resource matters and  
26 confirmation by the Legislature. The 15 board members  
27 appointed by the Governor must be selected in accordance  
28 with the following requirements.

7           determining public health policy.

8  
9           B. Two members must represent the Legislature's interest in  
10          maintaining health data to ensure that information collected

12          policy. One legislative member must be appointed by the  
13          President of the Senate and one legislative member must be

21          term length and the 2 legislative members serve 2-year terms  
22          coinciding with their legislative terms. Thereafter, members

25          that term. Members hold office until the appointment and

38  
39          **§8703. Powers and duties of the board**

40  
41          The board has the following powers and duties.

42  
43          1. Uniform reporting systems. The board shall establish  
44          uniform reporting systems.

45  
46          A. The board shall develop and implement data collection  
47          policies and procedures that require, at a minimum, the  
48          collection, processing, storing and analysis of clinical,  
49          financial and restructuring data.

2           B. In addition to the data collection policies and  
4           procedures established in paragraph A, the board may require  
6           the submission of clinical, financial and restructuring data  
8           from providers, 3rd-party payors and managed care  
10           organizations that are not subject to the requirements of  
12           sections 394, 395 and 395-A.

14           C. The board shall provide analysis of data upon request.

16           2. Contracts for data collection; processing. The board  
18           shall contract with one or more qualified, nongovernmental,  
20           independent 3rd parties for services necessary to carry out the

24           chapter. For purposes of this subsection, a group or  
26           organization affiliated with the University of Maine System is  
28           not considered a governmental entity. Unless permission is  
30           specifically granted by the board, a 3rd party hired by the  
32           organization may not release, publish or otherwise use any  
34           information to which the 3rd party has access under its contract  
36           and shall otherwise comply with the requirements of this chapter.

38           3. Contracts generally. The board may enter into all other  
40           contracts necessary or proper to carry out the powers and duties  
42           of this chapter.

44           4. Rulemaking. The board shall adopt emergency and  
46           permanent rules necessary for the proper administration and  
48           enforcement of the requirements of this chapter, in accordance  
50           with the Maine Administrative Procedure Act.

52           5. Public hearings. The board may conduct any public  
54           hearings determined necessary to carry out its responsibilities.

56           6. Staff. The board shall appoint staff as needed to carry  
58           out the duties and responsibilities of the board under this  
60           chapter.

62           7. User fees. In order to fund the operation of the  
64           organization, the board may assess reasonable fees for the right  
66           to access and use the health data. The board shall set policies  
68           governing the release, publication and uses of analyses, reports  
70           or compilations derived from the health data. The board shall  
72           wave user fees for public health research conducted by the  
74           department. The board shall establish a sliding scale of user  
76           fees. The board may waive or set lower fees for a user that is  
78           engaged in research of value to the general public if that user  
80           can demonstrate to the satisfaction of the board that the user is  
82           unable to afford the standard fee. The board may use the

2 revenues collected for the purpose of defraying the operating  
expenses of the organization.

4 8. Annual report. The board shall prepare and submit an  
6 annual report on health care trends to the Governor and the joint  
standing committee of the Legislature having jurisdiction over  
8 human resource matters no later than January 15th of each year.  
The report must include an annual accounting of all outside  
revenue received by the board.

10 9. Grants. The board may solicit, receive and accept  
12 grants, funds or anything of value from any public or private  
organization and receive and accept contributions of money,  
14 property, labor or any other thing of value from any legitimate  
source, except that the board may not accept grants from any  
16 entity that might have a vested interest in the decisions of the  
board.

18 10. Other powers. The board may exercise all powers  
20 reasonably necessary to carry out the powers expressly granted  
and responsibilities expressly imposed by this chapter.

#### 22 **§8704. Enforcement**

24 1. Fine. The failure to file data as required under this  
26 chapter is a civil violation. A provider who fails to file data  
required under this chapter may be fined not more than \$1,000 a  
28 day if that provider is a health care facility or \$500 a day for  
all other providers, except that a fine imposed under this  
30 section may not exceed \$25,000 for health care facilities for any  
one occurrence and \$12,500 for all other providers for any one  
32 occurrence.

34 2. License revoked. Upon a finding that a provider has  
36 repeatedly and intentionally refused to comply with the  
requirements of this chapter, the board may file a complaint with  
38 the provider's licensing board seeking the revocation of the  
provider's license.

40 3. Court order. If a provider refuses to file the data  
42 required, the board may obtain a court order requiring the  
provider to produce the data.

#### 44 **§8705. Revenues and expenditures**

46 1. Transition funding. Every hospital is subject to an  
48 assessment of not more than .07% of its gross patient service  
revenues. For the period of July 1, 1996 through March 31, 1997,  
50 the aggregate assessment on all hospitals may not exceed  
\$1,000,000. The organization shall assess each hospital for its

2 pro rata share prior to July 1, 1996. Each hospital shall pay  
3 the assessment charged to it on a quarterly basis, with payments  
4 due on or before July 1, 1996, October 1, 1996 and January 1,  
5 1997.

6 2. Permanent funding. The board may determine an  
7 appropriate assessment to be applied to all providers of health  
8 data, including hospitals, to defray the expenses of maintaining  
9 the health data functions set forth in this chapter. The board  
10 may request an appropriation of general funds from the  
11 Legislature.

12  
13 3. Use of funds. The board may use the revenues from  
14 provider assessments and user fees to defray the costs incurred  
15 by the board pursuant to this chapter, including staff salaries,  
16 administrative expenses, data system expenses, consulting fees  
17 and any other reasonable costs incurred to administer this  
18 chapter.

19  
20 4. Budget. The organization's expenditures are subject to  
21 legislative approval. The organization shall report annually,  
22 before February 1st, to the joint standing committee of the  
23 Legislature having jurisdiction over human resource matters on  
24 its planned expenditures for the year and on its use of funds in  
25 the previous year.

26  
27 5. Unexpended funds. Any funds not expended at the end of  
28 a fiscal year may not lapse, but must be carried forward to the  
29 succeeding fiscal year.

30  
31 6. Deposit with Treasurer of State. The board shall  
32 deposit all payments made pursuant to this section with the  
33 Treasurer of State. The deposits must be used for the sole  
34 purpose of paying the expenses of the Maine Health Data  
35 Organization.

36  
37 **§8706. Public access to data**

38  
39 1. Public access. Information, except privileged medical  
40 information and confidential commercial information, provided to  
41 the organization under this chapter must be made available to any  
42 person upon request as long as individual patients or health care  
43 practitioners are not directly identified.

44  
45 2. Notice and comment period. The board shall adopt rules  
46 establishing criteria for determining whether information is  
47 privileged medical information and adopt procedures to afford  
48 affected health care practitioners notice and opportunity to  
49 comment in response to requests for information that may be  
50 considered privileged.

2           3. Public health studies. The board by rule may allow,  
3 pursuant to subsection 1, exceptions to the rules adopted only to  
4 the extent authorized in this subsection.

6           A. The board may approve access to identifying information  
7 for patients or for health care practitioners to:

8                   (1) The department; and

10                   (2) Other researchers with established protocols  
11 approved by the board for safeguarding confidential or  
12 privileged information.

14           B. The board shall adopt rules that ensure that:

16                   (1) Identifying information is used only to gain  
17 access to medical records and other medical information  
18 pertaining to public health;

20                   (2) Medical information about any patient identified  
21 by name is not obtained without the consent of that  
22 patient except when the information sought pertains  
23 only to verification or comparison of health data and  
24 the board finds that confidentiality can be adequately  
25 protected without patient consent;

28                   (3) Those persons conducting the research or  
29 investigation do not disclose medical information about  
30 any patient identified by name to any other person  
31 without that patient's consent;

32                   (4) Those persons gaining access to medical  
33 information about an identified patient use that  
34 information to the minimum extent necessary to  
35 accomplish the purposes of the research for which  
36 approval was granted; and

38                   (5) The protocol for any research is designed to  
39 preserve the confidentiality of all medical information  
40 that can be associated with identified patients, to  
41 specify the manner in which contact is made with  
42 patients or health care practitioners and to maintain  
43 public confidence in the protection of confidential  
44 information.

46           C. The board may not grant approval under this subsection  
47 if the board finds that the proposed identification of or  
48 contact with patients or health care practitioners would  
49 violate any state or federal law or diminish the  
50

2 confidentiality of medical information or the public's  
3 confidence in the protection of that information in a manner  
4 that outweighs the expected benefit to the public of the  
5 proposed investigation.

## 32 STATEMENT OF FACT

34 Part A of the bill establishes the Maine Health Data  
Organization, an independent executive organization that will  
36 oversee and coordinate the collection and analysis of health care  
data. The bill enacts provisions to ensure that the Maine Health  
38 Data Organization has the authority to collect health data from  
all health care facilities, 3rd-party payor, managed care  
40 organizations and practitioners providing health services,  
including pharmacists and health product manufacturers. The bill  
42 requires the Maine Health Data Organization to collect and  
analyze clinical, financial and restructuring data. The bill  
44 also provides for a mechanism of funding, including assessments  
and user fees, for the Maine Health Data Organization. The bill  
46 sets forth the transition provision necessary to ensure  
continuation of the data collection and analysis functions of the  
48 Maine Health Care Finance Commission until such time as the new  
organization becomes operational, as determined by the board or  
December 31, 1996, whichever is earlier.
