#### **Fiscal Detail and Notes**

This amendment reduces the cost of the bill by removing the General Fund appropriation to Maine Revenue Services of \$12,000 in fiscal year 2004-05 for computer programming costs associated with this income tax credit. These estimated programming costs for addition of lines to each of the individual and corporate income tax forms definition facilities on the MATS database can be absorbed by utilizing existing lines. As amended, the provisions of this bill are not expected to have any measurable impact on income tax collections.
