### COMMITTEE AMENDMENT "D" to H.P. 1209, L.D. 1629

	1. Definitions. For the purposes of this section, unless
2	the context otherwise indicates, the following terms have the
	following meanings.
4	
	A. "Funding public education from kindergarten to grade 12"
6	means the cost of funding essential programs and services as
	described in this chapter plus the total allocations for
8	program cost. debt service costs and adjustments.
LO	B. "Local cost share expectation" means the maximum amount
	of money needed for the purpose of funding public education
L2	from kindergarten to grade 12 that may be derived from
	property tax.
L <b>4</b>	
	2. Local cost share expectation established. The local
L6	cost share expectation is established as follows.
L8	) Whis proposed smaller to the least stand
10	A. This paragraph applies to the local cost share
20	expectation. Notwithstanding any other provision of law,
.0	with respect to the assessment of any property taxes for property tax years beginning on or after April 1, 2005, this
22	subsection establishes the local cost share expectation that
	may be assessed on the value of property for the purpose of
24	funding public education from kindergarten to grade 12. The
	commissioner shall annually by February 1st notify each
26	school administrative unit of its local cost share
	expectation. Each superintendent shall report to the
28	municipal officers whenever a school administrative unit is
	notified of the local cost share expectation or a change
30	made in the local cost share expectation resulting from an
	adjustment.
32	
	B. This paragraph applies to the calculation of the
34	full-value education mill rate. For property tax years
	beginning on or after April 1, 2005, the commissioner shall
36	calculate the full-value education mill rate that is
	required to raise the total of the local cost share
38	expectation for funding public education from kindergarten
	to grade 12. The full-value education mill rate is derived
10	by dividing the applicable tax year percentage of the
	projected cost of funding public education from kindergarten
12	to grade 12 by the certified total state valuation for the
1.4	year prior to the most recently certified total state

• •	
36	For each of the fiscal years described in section 15671,
20	subsection 7, the commissioner shall establish a transition
38	adjustment calculated to minimize the <u>adverse</u> fiscal impact directlyrelatedto <u>that may be experienced</u> by some
40	municipalities as a result of the phase-in of this Act. The
40	transition adjustment for a municipality must be directly related
42	to the phase-in of essential programs and services and the local
	cost share expectation method of determining the local
44	contribution to the cost of funding essential programs and
	services. The amount of this adjustment is established at
46	\$10,000,000 for fiscal year 2005-06 and must decline with each

## COMMITTEE AMENDMENT

""Do you want the State to relieve the burden on the property tax by increasing the state contribution to the cost of essential education programs and services, relieving municipalities from having to pay more than 8.55 mills in property tax toward the cost of essential education programs and services, providing property tax rebates for homeowners whose property taxes exceed 4% of their income and permitting municipalities to adopt a local sales and use tax if approved by local referendum?"'

Further amend the resolution by relettering or renumbering any nonconsecutive Part letter or section number to read consecutively.

#### SUMMARY

This amendment is a minority report of the committee. It replaces Parts A to D of the resolution. Part A of this amendment provides \$30,000,000 of additional state funding for education in fiscal year 2004-05 and speeds up the implementation of the essential programs and services funding model by phasing in recognition of 100% of essential programs and services and a 55% state share by fiscal year 2007-08 rather than by fiscal year 2009-10.

Part B expands the Maine Residents Property Tax Program, commonly referred to as "the circuitbreaker program," by removing the income eligibility requirements and providing for a rebate equal to the amount by which the property taxes on the first \$200,000 of the value of a homestead, or rent constituting property taxes, exceed 5% of a household's income.

Part C of the amendment allows municipalities to impose a 1% local option sales and use tax. Revenue from the tax, after the deduction of administrative costs, is divided between the municipality and the county in which the municipality is located on a 75/25 basis, respectively. A municipality must use the revenue generated by the local option sales and use tax to reduce the property tax rate. If, despite the use of all the revenue generated by the local option sales and use tax, the property tax rate, after adjustment for inflation, can not be decreased below a level that is 1% higher than the previous year's property tax rate, then this amendment requires a 2/3 vote of the governing body of the municipality to pass the budget containing the higher tax rate.

Part D provides appropriations and allocations to implement the provisions of the resolution, as amended.

This bill includes a General Fund appropriation of \$30,000,000 in fiscal year 2004-05 for the General Purpose Aid for Local Schools program within the Department of Education. This bill provides for a new method of determining the state and local share of funding the cost of K-12 public education beginning in fiscal year 2005-06. This bill includes the Essential Programs and Services model, as approved by the Legislature in Public Law 2003, c. 504, An Act to Implement School Funding Based on Essential Programs and Services, as the basis for determining the total cost of K-12 public education. However, this bill differs from PL 2003, c. 504 in that it requires the State's share to increase to 55% by fiscal year 2007-08 versus the 50% by fiscal year 2009-10 requirement in PL 2003, c. 504. This bill also provides for the calculation of a full value education mill rate that is required to raise the total maximum local share of the cost of funding K-12 education and establishes a 8.55 mill cap on the full value education mill rate.

This bill also provides for a transition adjustment through fiscal year 2007-08 for municipalities that experience an adverse fiscal impact as a result of the phase-in of the essential programs and services model and the maximum local share mill rate expectation method of determining the local contribution of funding K-12 education. This bill proposes a transition adjustment amount of \$10,000,000 in fiscal year 2005-06 with the amount declining in each successive year through fiscal year 2007-08. Since this legislation does not specify the transition amounts for fiscal years 2006-07 and fiscal year 2007-08, this fiscal note assumes that the transition adjustment declines evenly over the 3-year period. This fiscal note also assumes that the transition adjustment amounts are included in the estimated General Fund appropriation amounts needed to fund K-12 education based on the Essential Programs and Services model in this measure, thereby affecting the distribution among individual school units. The impact to each local school unit can not be determined at this time.

The following table provides estimates for the total State and Local Operating Cost of funding education based on the Essential Programs and Services model and provides a comparison of the General Fund appropriations that are estimated to be needed to fund the state's share of the cost of funding K-12 education based on the State's contribution reaching 50% in fiscal year 2009-10, as approved in Public Law 2003, c. 504, versus the 55% State contribution by fiscal year 2007-08 proposed in this legislation.

This bill includes a General Fund appropriation of \$34,350,000 in fiscal year 2005-06 to support the additional costs of the expansion of the Maine Residents Property Tax program. It also includes \$97,163 for the administrative costs associated with this expansion.

This bill also provides for a limited local option sales and use tax. The revenue associated with this provision can not be estimated at this time and will depend on the number and size of the municipalities that elect to impose this tax. This bill also includes a one-time General Fund appropriation of \$956,561 in fiscal year 2005-06 for Maine Revenue Services for certain costs associated with establishing a municipal local option sales and use tax.
