Conflicts with LD 1919 - 2004-2005 Supplemental Budget Bill

The estimates included in this fiscal note reflect the impact of the bill as amended by this amendment and attempt to anticipate the interaction effects of this bill as amended and LD 1919, the 2004-2005 Supplemental Budget Bill, as amended by Committee Amendment "A".

This bill does not reflect the deappropriation in fiscal year 2004-05 as a result of the change of the treatment of the Maine Residents Property Tax Program (or "circuit breaker" program) as reductions of individual income tax revenue rather than a General Fund appropriation because that deappropriation is included in LD 1919. If LD 1919 is not enacted, a deappropriation from the Maine Residents Property Tax Program will be required and the amount of the net change to General Fund revenue and the transfers to the Local Government Fund/Disproportionate Tax Burden Fund will be increased.

The General Purpose Aid for Local Schools statutory changes and language establishing the fiscal year 2004-05 distribution to municipalities assume that the additional \$15 million provided in LD 1919 Part N is also appropriated. If the amounts in LD 1919 are changed, the amounts included in this bill and the statutory and other language establishing the distribution will need to be revised accordingly.
