## **SUMMARY**

This amendment changes the title to clarify the bill's intent and makes technical formatting changes to increase the readability of the bill. As in the bill, the amendment clarifies that a financial institution must recognize a writ of execution served on behalf of a creditor with an adverse claim to business accounts held by a financial institution. Under current law, without the clarification, creditors may be required to obtain a court-ordered injunction or restraining order to make an adverse claim to business accounts held by a financial institution.
