R.O.S.

1 **§3907. Assessments against insurers**

2 **1. Assessments.** For the purpose of providing the funds necessary to carry out the  
3 powers and duties of the association, the board shall assess member insurers at such a  
4 time and for such amounts as the board finds necessary. Assessments are due not less  
5 than 30 days after written notice to the member insurers and accrue interest at 12% per  
6 annum on and after the due date.

7 **2. Maximum assessment.** Each insurer must be assessed by the board an amount  
8 not to exceed \$2 per covered person insured or reinsured by each insurer per month for  
9 medical insurance. An insurer may not be assessed on policies or contracts insuring  
10 federal or state employees.

11 **3. Determination of assessment.** The board shall make reasonable efforts to ensure  
12 that each covered person is counted only once with respect to an assessment. For that  
13 purpose, the board shall require each insurer that obtains excess or stop loss insurance to  
14 include in its count of covered persons all individuals whose coverage is insured, in  
15 whole or in part, through excess or stop loss coverage. The board shall allow a reinsurer  
16 to exclude from its number of covered persons those who have been counted by the  
17 primary insurer or by the primary reinsurer or primary excess or stop loss insurer for the  
18 purpose of determining its assessment under this subsection. The board may verify each  
19 insurer's assessment based on annual statements and other reports determined to be  
20 necessary by the board. The board may use any reasonable method of estimating the  
21 number of covered persons of an insurer if the specific number is unknown.

22 **4. Excess funds.** If assessments and other receipts by the association, board or plan  
23 administrator exceed the actual losses and administrative expenses of the plan, the board  
24 shall hold the excess as interest and may use those excess funds to offset future losses or  
25 to reduce plan premiums. As used in this subsection, "future losses" includes reserves for  
26 claims incurred but not reported.

27 **5. Failure to pay assessment.** The superintendent may suspend or revoke, after  
28 notice and hearing, the certificate of authority to transact insurance in this State of any  
29 member insurer that fails to pay an assessment. As an alternative, the superintendent may  
30 levy a penalty on any member insurer that fails to pay an assessment when due. In  
31 addition, the superintendent may use any power granted to the superintendent by this  
32 Title to collect any unpaid assessment.

33 **§3908. Availability to coverage**

34 The association shall offer a choice of 2 or more coverage options through the plan as  
35 set out in section 3909, subsections 1 and 2. The plan becomes effective October 1, 2008.  
36 Policies offered through the association must be available for sale April 1, 2009. The  
37 association shall directly insure the coverage provided by the plan, and the policies must  
38 be issued through the plan administrator.

39 **§3909. Requirements for coverage**

40 **1. Coverage offered.** The plan must offer in an annually renewable policy the  
41 coverage specified in this section for each eligible person. If a covered person is also  
42 eligible for Medicare coverage, the plan may not pay or reimburse any person for

1.013

- 1 expenses paid by Medicare. A person whose health insurance coverage is involuntarily  
2 terminated for any reason other than nonpayment of premium may apply for coverage  
3 under the plan. If such coverage is applied for within 90 days after the involuntary  
4 termination and if premiums are paid for the entire period of coverage, the effective date  
5 of the coverage is the date of termination of the previous coverage.
- 6 **2. Major medical expense coverage.** The plan must offer major medical expense  
7 coverage to every covered person who is not eligible for Medicare. The board shall  
8 establish the coverage to be issued by the plan, its schedule of benefits and exclusions and  
9 other limitations, which the board may amend from time to time subject to the approval  
10 of the superintendent. In establishing the plan coverage, the board shall take into  
11 consideration the levels of health insurance provided in the State and medical economic  
12 factors as determined appropriate.
- 13 **3. Rates.** Rates for coverage issued by the association must meet the requirements  
14 of this subsection.
- 15 A. Rates may not be unreasonable in relation to the benefits provided, the risk  
16 experience and the reasonable expenses of providing the coverage.
- 17 B. Rate schedules must comply with section 2736-C and are subject to approval by  
18 the superintendent.
- 19 C. Subject to approval by the superintendent, standard risk rates for coverage issued  
20 by the association must be established by the association using reasonable actuarial  
21 techniques and must reflect anticipated experiences and expenses of such coverage  
22 for standard risks. The premium for the standard risk rates must range from a  
23 minimum of 125% to a maximum of 150% of the weighted average of rates charged  
24 by those insurers and health maintenance organizations with individuals enrolled in  
25 similar medical insurance plans.
- 26 **4. Compliance with state law.** Products offered by the association must comply  
27 with all relevant requirements of this Title applicable to individual health insurance,  
28 including requirements for mandated coverage for specific health care services and  
29 specific diseases and for certain providers of health care services.
- 30 **5. Other sources primary.** The association must be payer of last resort of benefits  
31 whenever any other benefit or source of 3rd-party payment is available. The coverage  
32 provided by the association must be considered excess coverage, and benefits otherwise  
33 payable under association coverage must be reduced by all amounts paid or payable  
34 through any other health insurance and by all hospital and medical expense benefits paid  
35 or payable under any short-term, accident, dental-only, vision-only, fixed indemnity,  
36 limited benefit or credit insurance; coverage issued as a supplement to liability insurance;  
37 workers' compensation coverage; automobile medical payment; or liability insurance,  
38 whether or not provided on the basis of fault, and by any hospital or medical benefits paid  
39 or payable by any insurer or insurance arrangement or any hospital or medical benefits  
40 paid or payable under or provided pursuant to any state or federal law or program.
- 41 **6. Recovery of claims paid.** An amount paid or payable by Medicare or any other  
42 governmental program or any other insurance, or self-insurance maintained in lieu of  
43 otherwise statutorily required insurance, may not be made or recognized as a claim under  
44 such a policy or be recognized as or towards satisfaction of an applicable deductible or

1.013

1 out-of-pocket maximum or to reduce the limits of benefits available under the plan. The  
2 association has a cause of action against a covered person for the recovery of the amount  
3 of any benefits paid to the covered person that should not have been claimed or  
4 recognized as claims because of the provisions of this subsection or because the benefits  
5 are otherwise not covered. Benefits due from the association may be reduced or refused  
6 as a setoff against any amount recoverable under this subsection.

7 **§3910. Eligibility for coverage**

8 **1. Eligibility; application for coverage.** A resident is eligible for coverage under  
9 the plan if the resident provides evidence of rejection, a requirement of restrictive riders,  
10 a rate increase or a preexisting conditions limitation on a qualified plan, the effect of  
11 which is to substantially reduce coverage from that received by a person considered a  
12 standard risk by at least one member insurer within 6 months of the date of the certificate,  
13 or if the resident meets other eligibility requirements adopted by rule by the  
14 superintendent that are not inconsistent with this chapter and that evidence that a person  
15 is unable to obtain coverage substantially similar to that which may be obtained by a  
16 person who is considered a standard risk. Rules adopted pursuant to this subsection are  
17 routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

18 **2. Change of domicile.** The board shall develop standards for eligibility for  
19 coverage by the association for a natural person who changes domicile to this State and  
20 who at the time domicile is established in this State is insured by an organization similar  
21 to the association. The eligible maximum lifetime benefits for that covered person may  
22 not exceed the lifetime benefits available through the association less any benefits  
23 received from a similar organization in the former domiciliary state.

24 **3. Eligibility without applicaton.** The board shall develop a list of medical or  
25 health conditions for which a person is eligible for plan coverage without applying for  
26 health insurance under subsection 1. A person who can demonstrate the existence or  
27 history of any medical or health conditions on the list developed by the board may not be  
28 required to provide the evidence specified in subsection 1. The board may amend the list  
29 from time to time as appropriate.

30 **4. Exclusions from eligibility.** A person is not eligible for coverage under the plan  
31 if:

32 A. The person has or obtains health insurance coverage substantially similar to or  
33 more comprehensive than a plan policy or would be eligible to have coverage if the  
34 person elected to obtain it, except that:

35 (1) A covered person may maintain other coverage for the period of time the  
36 person is satisfying a preexisting condition waiting period under a plan policy;  
37 and

4 \$3,000,000;

5 E. The person is an inmate or resident of a public institution; or

6 F. The person's premiums are paid for or reimbursed under any government-  
7 sponsored program or by any government agency or health care provider, except as

9 agency or health care provider.

10 **5. Termination of coverage.** The coverage of any person ceases:

11 A. On the date a person is no longer a resident;

14 D. At the option of the association, 30 days after the association makes any inquiry  
15 concerning the person's eligibility or place of residence to which the person does not  
16 reply.

17 The coverage of any person who ceases to meet the eligibility requirements of this section  
18 may be terminated immediately.

19 **6. Unfair trade practice.** It constitutes an unfair trade practice for any insurer,  
20 producer, employer or 3rd-party administrator to refer an individual employee or a  
21 dependent of an individual employee to the association, or to arrange for an individual  
22 employee or a dependent of an individual employee to apply to the plan, for the purpose  
23 of separating such an employee or dependent from a group health benefits plan provided  
24 in connection with the employee's employment.

25 **§3911. Actions against association or member insurers based upon joint or**  
26 **collective actions**

27 Participation in the association, the establishment of rates, forms or procedures or any  
28 other joint or collective action required by this chapter may not be the basis of any legal  
29 action or criminal or civil liability or penalty against the association or a member insurer.

30 **§3912. Reimbursement of member insurer**

31 **1. Reimbursement.** A member insurer may seek reimbursement from the  
32 association and the association shall reimburse the member insurer to the extent claims  
33 made by a covered person after April 1, 2009 exceed premiums paid on a calendar-year  
34 basis by the covered person to the member insurer for a covered person who meets the  
35 following criteria:

36 A. The member insurer sold an individual health plan to the covered person between

8 employers for the carrier;
- 9 (b) Have been acquired from another carrier as a distinct grouping of plans;

38 actively engaged in business that, on at least 50% of its working days during the

20 **2. Small group health plans subject to this section.** The following small group  
21 health plans are subject to this section.

22 A. Except as provided in paragraph B, this section applies to any small group health  
23 plan that provides coverage to one or more employees of a small employer.

24 B. This section does not apply to individual health plans that are subject to section  
25 2736-C.

26 **3. Premium rates.** Premium rates for small group health plans are subject to the  
27 following provisions.

28 A. The index rate for a rating period for any class of business may not exceed the  
29 index rate for any other class of business by more than 20%. This paragraph does not  
30 apply to a class of business if any of the following apply:

31 (1) The class of business is one for which the carrier does not reject, and never  
32 has rejected, small employers included within the carrier's definition of  
33 employers eligible for the class of business or otherwise eligible employees and  
34 dependents who enroll on a timely basis, based upon their claims experience or  
35 health status;

36 (2) The carrier does not involuntarily transfer, and never has involuntarily  
37 transferred, a health benefit plan into or out of the class of business; and

(3) The class of business is available for purchase.

B. For a class of business, the premium rate charged during a rating period to small employers with similar case characteristics for the same or similar coverage, or the rates that could be charged to such employers under the rating system for that class of business, may not vary from the index rate by more than 25% of the index rate.

C. The percentage increase in the premium rate charged to a small employer for a new rating period may not exceed the sum of the following:

(1) The percentage change in the new business premium rate measured from the first day of the prior rating period to the first day of the new rating period. In the case of a class of business for which the small group carrier is not issuing new policies, the carrier shall use the percentage change in the base premium rate;

(2) An adjustment, not to exceed 15% annually and adjusted pro rata for rating periods of less than one year, due to the claims experience, health status or duration of coverage or the employees or dependents of the small employer as determined from the carrier's rate manual for the class of business; and

(3) Any adjustment due to change in coverage or change in the case characteristics of the small employer as determined from the carrier's rate manual for the class of business.

D. In the case of health benefit plans issued prior to the effective date of this section, a premium rate for a rating period may exceed the ranges described in paragraphs A and B for a period of 5 years following the effective date of this section. In that case, the percentage increase in the premium rate charged to a small employer in such a class of business for a new rating period may not exceed the sum of the following:

(1) The percentage change in the new business premium rate measured from the first day of the prior rating period to the first day of the new rating period. In the case of a class of business for which the small group carrier is not issuing new policies, the carrier shall use the percentage change in the base premium rate; and

(2) Any adjustment due to change in coverage or change in the case characteristics of the small employer as determined from the carrier's rate manual for the class of business.

E. This section is not intended to affect the use by a small group carrier of legitimate rating factors other than claims experience, health status or duration of coverage in the determination of premium rates. A small group carrier shall apply rating factors, including case characteristics, consistently with respect to all small employers in a class of business.

F. A small group carrier may not transfer a small employer involuntarily into or out of a class of business. A small group carrier may not transfer a small employer into or out of a class of business unless such offer is made to transfer all small employers in the class of business without regard to any changes in case characteristics, claims experience, health status or duration of coverage since the first date of coverage.

1 4. Coverage for late enrollees. In providing coverage to late enrollees, small group  
2 health plan carriers are allowed to exclude or limit coverage for a late enrollee subject to  
3 the limitations set forth in section 2849-B, subsection 3.

4 5. Guaranteed issuance and guaranteed renewal. Carriers providing small group  
5 health plans must meet the following requirements on issuance and renewal.

6 A. Any small group health plan offered to any eligible group or subgroup must be  
7 offered to all eligible groups that meet the carrier's minimum participation  
8 requirements, which may not exceed 75%, to all eligible employees and their  
9 dependents in those groups. In determining compliance with minimum participation  
10 requirements, eligible employees and their dependents that have existing health care  
11 coverage may not be considered in the calculation. If an employee declines coverage  
12 because the employee has other coverage, any dependents of that employee who are  
13 not eligible under the employee's other coverage are eligible for coverage under the  
14 small group health plan.

15 B. A carrier may deny coverage under a managed care plan, as defined by section  
16 4301-A:

17 (1) To employers who have no employees who live, reside or work within the  
18 approved service area of the plan; and

19 (2) To employers if the carrier has demonstrated to the superintendent's  
20 satisfaction that:

21 (a) The carrier does not have the capacity to deliver services adequately to  
22 additional enrollees within all or a designated part of its service area because  
23 of its obligations to existing enrollees; and

24 (b) The carrier is applying this provision uniformly to individuals and groups  
25 without regard to any health-related factor.

26 A carrier that denies coverage in accordance with this subparagraph may not  
27 enroll individuals residing within the service area subject to denial of coverage,  
28 or groups or subgroups within that area for a period of 180 days after the date of  
29 the first denial of coverage.

30 6. Disclosure of rating practices and renewability provisions. Each small group  
31 carrier shall disclose the following in the sales and marketing materials provided to small  
32 employers:

33 A. The extent to which premium rates for a specific small employer are established  
34 or adjusted due to the claims experience, health status or duration of coverage of the  
35 employees and dependents of the small employer;

36 B. The ability of the carrier to change premium rates and rating factors, including  
37 case characteristics, that may affect changes in premium rates;

38 C. A description of the class of business in which the small employer is or will be  
39 included, including the applicable grouping of plans; and

40 D. The small employer's rights regarding renewal of the small group health plan.

1 7. Maintenance of records. A small group carrier shall maintain at its principal  
2 place of business a complete and detailed description of its rating practices and renewal  
3 underwriting practices, including information and documentation that demonstrate that its  
4 rating methods and practices are based upon commonly accepted actuarial assumptions  
5 and are in accordance with sound actuarial principles. On or before March 1st annually, a  
6 carrier shall file with the superintendent an actuarial certification that the carrier is in  
7 compliance with this section and that the rating methods of the carrier are actuarially  
8 sound. A copy of the certification must be retained by the carrier at its principal place of  
9 business. A carrier shall also make the information and documentation required in this  
10 subsection available to the superintendent upon request. The information provided to the  
11 superintendent pursuant to this subsection is proprietary and must be kept confidential by  
12 the superintendent. The information may not be disclosed except as agreed to by the  
13 carrier or as ordered by a court of competent jurisdiction.

14 8. Discretion of superintendent. The superintendent may suspend all or any part of  
15 subsection 3 as to the premium rates applicable to one or more small employers for one or  
16 more rating periods upon a filing by the small group carrier and a finding by the  
17 superintendent that either the suspension is reasonable in light of the financial condition  
18 of the carrier or that the suspension would enhance the efficiency and fairness of the  
19 marketplace for small group health plans.

20 9. Applicability. This section applies to all small group health plan policies,  
21 contracts and certificates executed, delivered, issued for delivery, continued or renewed  
22 in this State on or after January 1, 2010. For purposes of this section, all contracts are  
23 deemed to be renewed no later than the next yearly anniversary of the contract date.

5 chapter 23, the superintendent shall cause a hearing to be held.

15 **SUMMARY**

16 This amendment strikes Committee Amendment "A" and instead does the following.

17 1. The amendment repeals the guaranteed issuance and community rating law for  
 18 individual health plans effective April 1, 2009 and allows carriers to treat their pre-April  
 19 1, 2009 book of business separately from their post-April 1, 2009 book of business. It  
 20 makes changes to the continuity of coverage laws to allow underwriting when someone  
 21 switches carriers in the individual market.

22 2. The amendment creates the Comprehensive Chronic Care Pool Association. The  
 23 purpose of the association is to spread the cost of individuals that require chronic care  
 24 among all health insurers. The amendment funds the chronic care pool through an  
 25 assessment on insurers. An individual insured through the chronic care pool may be  
 26 charged a premium up to 150% of the average premium rates charged by carriers for  
 27 similar health insurance plans. The amendment requires the State to submit an application  
 28 to the Federal Government for federal assistance to create a chronic care pool.

29 3. The amendment also removes the requirement that carriers offer standardized  
 30 plans as defined in Bureau of Insurance Rule Chapter 750 in the individual market.

31 4. The amendment repeals the community rating law for small group health plans  
 32 effective January 1, 2010 and enacts in its place provisions governing the rating of small  
 33 group health plans based on a model act from the National Association of Insurance  
 34 Commissioners.

35 5. The amendment allows a health maintenance organization to offer health plans  
 36 that do not comply with geographic access standards if the health maintenance

1 organization also offers health plans that comply with those access standards or offers a  
2 fee-for-service health plan.

3 6. The amendment repeals the savings offset payment used to fund subsidies for  
4 individuals, sole proprietors and employees of small employers enrolled in the Dirigo  
5 Health Program with an effective date of July 1, 2008 or the effective date of the Act,  
6 whichever occurs later.

7 7. The amendment requires that Dirigo Health submit quarterly reports on  
8 information regarding enrollment in the Dirigo Health Program.

9 8. The amendment corrects cross-references to reflect the repeal of the savings offset  
10 payment.

11 9. The amendment adds an appropriations and allocations section.

#### Fiscal Detail and Notes

The fiscal note reflects the incremental difference between the amendment and Committee Amendment "A".

This amendment eliminates the proposed increases in the cigarette tax and other tobacco products tax, which reduces General Fund revenue by \$904,254 in fiscal year 2008-09 and reduces revenue for the Dirigo Health Fund by \$28,502,356 in fiscal year 2008-09. It also eliminates the General Fund appropriation of \$43,857 in fiscal year 2008-09 for Maine Revenue Services.

The amendment would retain the elimination the Saving Offset Payment (SOP), one of the funding sources for the Dirigo Health Program, beginning with the assessment effective July 1, 2008, but would not offset the lost revenue. For the purposes of this fiscal note, the baseline assumption for future year SOPs is the \$32.8 million SOP assessed for the year beginning July 1, 2008.

The amendment creates the Comprehensive Health Insurance Risk Pool Association financed with an assessment on member insurers. Because this assessment would be assessed and collected by the Association, a non-profit legal entity, there is no direct fiscal impact on State programs or accounts.

Provides an allocation of \$15,000 to the Bureau of Insurance on a one-time basis for the costs of contracting with another entity to prepare a grant application.
